# 840 Request for Quotation

Functional Group ID= $\mathbf{RQ}$ 

#### **Introduction:**

This Draft Standard for Trial Use contains the format and establishes the data contents of the Request for Quotation Transaction Set (840) for use within the context of an Electronic Data Interchange (EDI) environment. The transaction set can be used to provide potential buyers with the ability to solicit price, delivery schedule, and other items from potential sellers of goods and services.

#### **Notes:**

- 1. This Implementation Convention (IC) is used to solicit quotations for large or small purchases, or to amend, cancel or reissue a solicitation. In this convention, the terms solicit and quote are used generically and encompass such other terms as Invitation for Bid (IFB) and Bid; Request for Proposal (RFP) and Proposal, Broad Agency Announcement (BAA) and Request for Information (RFI). This convention can be used to transmit the solicitation information including conditions of sale, fill-in clauses, Contract Data Requirements Lists, Contract Security Classification Specification, hazardous material data and MIL-STD -2073 packaging requirements. It can also be used to solicit multiple prices based on various quantities, delivery to geographic zones (states or countries), or to request price breaks for various quantities.
- 2. This transaction set makes use of code lists contained in the Federal EDI Coding Manual which is available at http://fedebiz.disa.mil, under Related Documents, Federal EDI Coding Manual.
- 3. Within this implementation convention, the phrase "use in conjunction with" indicates a requirement to transmit specified codes, data elements, or segments, when the code, data element, or segment associated with the phrase is present. If this requirement is multi-directional, the phrase will appear in all applicable locations. This phrase is not used when the X12 syntax mandates this requirement.

# **Transaction Set Notes**

- **1.** If segment LIN is used, do not use LIN01.
- 2. The SCH segment is used to specify various quantities of items ordered that are to be scheduled. When this segment is used, the unit of measurement code (SCH02) should always be identical to the unit of measurement code in the associated PO1 segment (PO103) and the sum of values of quantity (SCH01) should always equal the quantity ordered (PO102) in the PO1 segment.
- 3. The number of line items (CTT01) is the accumulation of the number of PO1 segments. If used, hash total (CTT02) is the sum of the value of quantities ordered (PO102) for each PO1 segment.

Segment: ST Transaction Set Header

**Position:** 010

Loop:

Level: Heading Usage: Mandatory

Max Use: 1

**Purpose:** To indicate the start of a transaction set and to assign a control number

Syntax Notes:

**Semantic Notes:** 1 The transaction set identifier (ST01) is used by the translation routines of the

interchange partners to select the appropriate transaction set definition (e.g.,

810 selects the Invoice Transaction Set).

**Comments:**

#### BQT06 92 **Purchase Order Type Code**

O ID 2/2

Code specifying the type of Purchase Order

Use to identify the type of award instrument that is expected to be issued as a result of this solicitation.

| BL | Bailment  |
|----|-----------|
| KA | Agreement |

Use to indicate cooperative agreements and other

agreements.

KB Blanket Purchase Agreement

KC Contract

**Basic Agreement** KD

KE **Basic Ordering Agreement** 

KG Grant

ΚI Indefinite Delivery Indefinite Quantity

Purchase Order KN KP Authority to Proceed

Use to indicate that the intended type of assistance

award will be a loan.

KQ Indefinite Delivery Definite Quantity

KR Requirements KS Letter Contract KT Task Order

LS Lease

> Use to indicate a lease agreement as the type of intended award instrument. When equipment rental is to be awarded pursuant to another type of instrument (purchase order, delivery order, contract, etc.), use the appropriate listed code in this data element and use code ER in BQT10.

RI. Release or Delivery Order

> Use to indicate releases, calls, or delivery orders against existing award instruments, e.g., if soliciting quotes for a Federal Supply Schedule

item.

ZZMutually Defined

> Use to indicate that the intended type of assistance award will be provided through Formula Funds.

#### **BQT07** 960 **Request for Quote Type Code**

O ID 2/2

Code specifying the type of request for quote

Use, in conjunction with BOT01, code 00, to indicate the type of solicitation.

01 Request For Quote

| 03 | Invitation for Bid                           |
|----|--|
| 04 | Request for Proposal                         |

| 11 | Broad Announcement                           |
|    | Use to indicate a Broad Agency Announcement. |
| BF | Best and Final                               |

# BQT08 1166 Contract Type Code

O ID 2/2

Code identifying a contract type

Use to identify the type of pricing arrangement for the award instrument that is expected to result from this solicitation. If there are line items that may have a different pricing arrangement, that pricing arrangement should be specified in the 2/CN1/025 segment within the PO1 loop that is applicable to the line item. In that situation, in this data element, identify the predominant pricing arrangement based on dollar value. Both BQT08 and the 2/CN1/025 segment can be included in the transaction set if needed.

BQT11 327 Change Order Sequence Number O AN 1/8

Number assigned by the orderer identifying a specific change or revision to a previously transmitted transaction set

When BQT01 is code 05, use of this data element is REQUIRED to identify the solicitation amendment number.

Segment: CUR Currency

**Position:** 040

Loop:

Level: Heading Usage: Optional

Max Use: 1

Purpose: Syntax Notes:

To specify the currency (dollars, pounds, francs, etc.) used in a transaction

1 If CUR08 is present, then CUR07 is required.

- 2 If CUR09 is present, then CUR07 is required.
- 3 If CUR10 is present, then at least one of CUR11 or CUR12 is required.
- 4 If CUR11 is present, then CUR10 is required.
- 5 If CUR12 is present, then CUR10 is required.
- **6** If CUR13 is present, then at least one of CUR14 or CUR15 is required.
- 7 If CUR14 is present, then CUR13 is required.
- **8** If CUR15 is present, then CUR13 is required.
- 9 If CUR16 is present, then at least one of CUR17 or CUR18 is required.
- **10** If CUR17 is present, then CUR16 is required.
- 11 If CUR18 is present, then CUR16 is required.
- 12 If CUR19 is present, then at least one of CUR20 or CUR21 is required.
- 13 If CUR20 is present, then CUR19 is required.
- **14** If CUR21 is present, then CUR19 is required.

#### **Semantic Notes:**

#### **Comments:**

1 See Figures Appendix for examples detailing the use of the CUR segment.

**Notes:** 

Ref.

Data

- 1. Use to indicate that quotes may be submitted in a currency other than US dollars. Do not use when quotes are to be submitted only in US dollars. When used, one currency, other than US dollars must be cited in CUR02. CUR05 may be used to cite a second acceptable currency.
- 2. If quotes may be submitted in different currencies depending on the line item, use the 2/CUR/015 segment to identify the currencies.

**REF** Reference Identification **Segment:** 

**Position:** 050

Loop:

Level: Heading **Usage:** Optional Max Use: >1

**Purpose:** To specify identifying information

**Syntax Notes:** At least one of REF02 or REF03 is required.

> 2 If either C04003 or C04004 is present, then the other is required. If either C04005 or C04006 is present, then the other is required. 3

**Semantic Notes: Comments:** 

**Notes:** 

REF04 contains data relating to the value cited in REF02.

Use this segment to identify reference numbers that apply to all of the line items in the solicitation. If the reference numbers vary by line item, use the 2/REF/100 segment.

DG **Drawing Number** DS Defense Priorities Allocation System (DPAS) Priority Rating HF **Engineering Data List** IJ Standard Industry Classification (SIC) Code 1. Use to indicate the Standard Industrial Classification (SIC) Code applicable to this award instrument. 2. Identify the size standard applicable to the SIC code in the 1/MEA/200 segment, citing code CS in *MEA01*. ILInternal Order Number Use to indicate the requisition (e.g., Military Standard Requisitioning and Issue Procedures (MILSTRIP)/Defense Logistics Management System (DLMS) or Federal Standard Requisitioning and Issue Procedures (FEDSTRIP) document number). End Item IQ Use to indicate the end item to which the items in the award instrument pertains. IX Item Number Use to indicate a Federal supply schedule (FSS) special item number. K4 Criticality Designator Use to indicate the surveillance criticality designator applicable to the award instrument. KS Solicitation Use in conjunction with the 1/BQT/020 segment, BQT01 code 18, only when a new solicitation number is assigned, to indicate the original solicitation number. LT Lot Number LX Qualified Products List Use in conjunction with the 1/CSH/110 segment, CSH01 is code OP, OM, or OB, to indicate the Qualified Products List, Qualified Manufacturer List, or Qualified Bidders List. MU Military Specification (MILSPEC) Number Military Standard (MIL-STD) Number NI NJ **Technical Document Number** NL Technical Order Number

P4 Project Code

Use to indicate the project number applicable to this solicitation.

PG Product Group

- 1. Use to indicate a North American Industrial Classification System (NAICS) code. When this code is used, the code cited in REF02 can be found at http://www.census.gov/epcd/www/naics.html.
- 2. The NAICS code MUST be 6 digits. If the NAICS code is less than 6 digits, add a trailing zero.
- 3. Identify the size standard applicable to the NAICS code in the 1/MEA/200 segment, citing code CS in MEA01.

PH Priority Rating

Use to indicate the MILSTRIP/DLMS/FEDSTRIP priority rating.

PID Program Identification Number

QC Product Specification Document Number

RQ Purchase Requisition Number

Use to indicate the Purchase Request (PR) number or Purchase Request Order Number (PRON).

When citing a purchase request number, concatenate its line item number with the purchase request number if it is necessary to transmit both numbers.

RS Returnable Container Serial Number

S3 Specification Number

Use to indicate a specification number other than a Military Specification (MIL-SPEC). When used, cite the specification number in REF02 and identify the issuing activity in REF03.

T4 Signal Code

TN Transaction Reference Number

- 1. Use to indicate the unique reference number of a related transaction set (e.g. an 841 transaction set carrying a related technical specification or drawing). Each transaction set has a unique number. In the case of the 841 transaction set, that number is carried in SPI02.
- 2. When used, cite the related transaction set's unique number in REF02 and cite the X12

FOB F.O.B. Related Instructions **Segment:** 

**Position:** 080

Loop:

Level: Heading Usage: Optional Max Use: >1

**Purpose:** 

To specify transportation instructions relating to shipment

If FOB03 is present, then FOB02 is required.

**Syntax Notes:** 

- 2 If FOB04 is present, then FOB05 is required. 3 If FOB07 is present, then FOB06 is required.
- 4 If FOB08 is present, then FOB09 is required.

**Semantic Notes:** 

- FOB01 indicates which party will pay the carrier.
- FOB02 is the code specifying transportation responsibility location.
- FOB06 is the code specifying the title passage location.
- FOB08 is the code specifying the point at which the risk of loss transfers. This may be different than the location specified in FOB02/FOB03 and FOB06/FOB07.

#### **Comments:**

**Notes:** 

- 1. Use this segment if the FOB point and the acceptance location apply to all of the line items. When the FOB point and/or acceptance location varies by line item, use the 2/FOB/180 segment.
- 2. If the FOB point varies by delivery zone or destinations within a delivery zone, use the 1/N1/310 loop citing code DZ in N101, identify the delivery zone in N103/04 citing code ZN in N103 and identify the FOB point in N405/406.
- 3. This segment is not used when the solicitation is for construction or a service without deliverables.

instrument's invoice.

PS Paid by Seller

> Use to indicate transportation charges are included in the unit price.

#### FOB02 309 **Location Qualifier**

X ID 1/2

Code identifying type of location

Use to identify the FOB point.

DE Destination (Shipping)

FV Free Alongside Vessel (Free On Board [F.O.B.] Point)

IT Intermediate FOB Point

> Use to indicate the FOB point is a freight forwarder. Provide the address in the 1/N1/310

loop, citing code IF in N101.

KE Port of Embarkation

> Use to indicate that the FOB Point is an overseas port of embarkation, either aerial or water, for delivery of Government furnished completed end items. Provide the address in the 1/N1/310 loop,

citing code KX in N101.

KL Port of Loading

> Use to indicate that the FOB Point is a port of loading. Provide the address in the 1/N1/310 loop,

citing code KX in N101.

OA Origin (After Loading on Equipment)

> Use to indicate FOB Origin with transportation charges prepaid by the seller and added as a separate item to the invoice. See FAR clause

52.247-32.

OR Origin (Shipping Point)

TM**Terminal** 

> 1. Use in conjunction with FOB03 to indicate that the FOB point for delivery outside the continental United States is located at a transportation terminal and not at origin or destination. FAR clauses 52.247-38, 52.247-39, or a similar FAR

clause may apply.

2. When used identify the FOB point in FOB03.

W Worldwide Geographic Location Code

> Use to indicate the FOB point for deliveries within the continental United States is destination and the FOB point for deliveries outside the continental

United States is origin.

ZZMutually Defined Use to indicate an Other FOB point, i.e., neither at origin nor at destination. Provide the address in the 1/N1/310 loop, citing code KX in N101. FOB03 352 Description O AN 1/80 A free-form description to clarify the related data elements and their content Use in conjunction with FOB02 code TM to identify the location of the FOB point. Cite the 5 position United Nations code for ports and other locations (UN/LOCODE) in accordance with the United Nations Location Code Manual. Not Used 334 O ID 2/2 FOB04 **Transportation Terms Qualifier Code** Code identifying the source of the transportation terms Not Used FOB05 335 **Transportation Terms Code** X ID 3/3 Code identifying the trade terms which apply to the shipment transportation responsibility **FOB06** 309 **Location Qualifier** X ID 1/2 Code identifying type of location Use to identify the acceptance point. This code also identifies the inspection location when it is the same as the acceptance point. DE Destination (Shipping) OR Origin (Shipping Point) ZZ Mutually Defined 1. Use to indicate the acceptance point is neither at origin nor at destination. When both the acceptance and inspection points are the same location but neither origin nor destination, use the 1/N1/310 loop, citing code 7M in N101. 2. When both the acceptance and inspection points are at different locations but neither are origin nor destination, use the 1/N1/310 loop to provide the acceptance point address, citing code KZ in N101 and the inspection point in another iteration of the N1 loop, citing code L1 in N101. Not Used **FOB07** 352 O AN 1/80 Description A free-form description to clarify the related data elements and their content Not Used 54 Risk of Loss Code O ID 2/2 FOB08 Code specifying where responsibility for risk of loss passes Not Used FOB09 352 Description X AN 1/80 A free-form description to clarify the related data elements and their content

Segment: CSH Sales Requirements

**Position:** 110

Loop:

Level: Heading Usage: Optional Max Use: 25

**Purpose:** To specify general conditions or requirements of the sale

**Syntax Notes:** 1 If CSH02 is present, then CSH03 is required.

- 2 If either CSH06 or CSH07 is present, then the other is required.
- **3** If either CSH09 or CSH10 is present, then the other is required.
- **Semantic Notes:** 1 CSH03 is the maximum monetary amount value which the order must not exceed.
  - 2 CSH04 is the account number to which the purchase amount is charged.
    3 CSH05 is the date specified by the sender to be shown on the invoice.
  - 4 CSH06 identifies the source of the code value in CSH07.

**Comments:** 

Notes: Use this segment to identify conditions of sale that apply to all of the line items.

If there are conditions of sale that apply to a specific line item, use the

2/CSH/142 segment.

indicate the percentage of the award instrument

value required for a performance or payment bond.

BG Bid Guarantee

Use in conjunction with CSH01 code D to indicate the percent of the quote amount required for a bid

guarantee.

SA Set Aside

Use to indicate the percentage of a set-aside.

Segment: SAC Service, Promotion, Allowance, or Charge Information

**Position:** 120

Loop:

Level: Heading Usage: Optional

Max Use: 25

**Purpose:** To request or identify a service, promotion, allowance, or charge; to specify the

amount or percentage for the service, promotion, allowance, or charge

**Syntax Notes:** 1 At least one of SAC02 or SAC03 is required.

- 2 If either SAC03 or SAC04 is present, then the other is required.
- **3** If either SAC06 or SAC07 is present, then the other is required.
- 4 If either SAC09 or SAC10 is present, then the other is required.
- 5 If SAC11 is present, then SAC10 is required.
- 6 If SAC13 is present, then at least one of SAC02 or SAC04 is required.
- 7 If SAC14 is present, then SAC13 is required.
- If SAC16 is present, then SAC15 is required.

#### **Semantic Notes:**

- 1 If SAC01 is "A" or "C", then at least one of SAC05, SAC07, or SAC08 is required.
- **2** SAC05 is the total amount for the service, promotion, allowance, or charge. If SAC05 is present with SAC07 or SAC08, then SAC05 takes precedence.
- 3 SAC08 is the allowance or charge rate per unit.
- 4 SAC10 and SAC11 is the quantity basis when the allowance or charge quantity is different from the purchase order or invoice quantity.
  SAC10 and SAC11 used together indicate a quantity range, which could be a dollar amount, that is applicable to service, promotion, allowance, or charge.
- 5 SAC13 is used in conjunction with SAC02 or SAC04 to provide a specific reference number as identified by the code used.
- **6** SAC14 is used in conjunction with SAC13 to identify an option when there is more than one option of the promotion.
- 7 SAC16 is used to identify the language being used in SAC15.

#### **Comments:**

- 1 SAC04 may be used to uniquely identify the service, promotion, allowance, or charge. In addition, it may be used in conjunction to further the code in SAC02.
- In some business applications, it is necessary to advise the trading partner of the actual dollar amount that a particular allowance, charge, or promotion was based on to reduce ambiguity. This amount is commonly referred to as "Dollar Basis Amount". It is represented in the SAC segment in SAC10 using the qualifier "DO" Dollars in SAC09.

#### Notes:

- 1. Use this segment to solicit services, discounts, or potential charges (e.g., taxes) and quantities applicable to all of the line items. If the services, discounts, or potential charges apply to a specific line item, use the 2/SAC/130 segment.
- 2. Offerors will respond in the offer with amounts and, if applicable, quantities, that apply to the services or discounts identified in this segment.

#### **Data Element Summary**

Ref. Data

<u>Des. Element Name</u> <u>Attributes</u>

### M SAC01 248 Allowance or Charge Indicator

M ID 1/1

Code which indicates an allowance or charge for the service specified

R Allowance Request

Use to comply with the mandatory nature of this data element when soliciting a service, discount, or potential charge in SAC02 for which the bidder is to provide an amount in the offer.

#### SAC02 1300 Service, Promotion, Allowance, or Charge Code X ID 4/4

Code identifying the service, promotion, allowance, or charge

Any code may be used. The following is a list of preferred codes:

A310 Air Express Charge

A320 Air Transportation Charge

A480 Assembly

B180 Cleaning Charge

B610 Container Service Charge USA/Canada

Use to indicate a reusable container requirement.

B870 Customs Charge

B940 Cutting Charge

C000 Defective Allowance

C240 Disconnect Charge

C260 Discount - Incentive

Use to indicate a discount when payment is made using the government credit card.

#### C300 Discount - Special

Use to indicate an incremental quantity discount. An incremental quantity discount applies only to the quantity units within its specified range. Successive incremental discounts are applied against a total order quantity. For example, if different discounts are given for quantities, 1 - 10, 11 - 20, 21 - 30, etc., use of this code implies that for a quantity of 25, the first discount applies to the first 10 units, the second discount applies to the next 10 units and the third discount applies to the last 5 units. This is contrast to the F910 step ladder discount that applies a single discount to the total line item quantity.

#### C310 Discount

Use to indicate a general discount not related to a quantity or purchase amount. Offerors should not include any general discount within the C300 or F910 discount considerations.

C330 Distribution Fee

C370 Diversion Charge

C580 Emergency Service

C590 Emergency Surcharge

C880 Expediting Premium

D170 Free Goods

Use to indicate a quantity provided at no cost if a specified quantity or monetary value is purchased, e.g., buy \$100.00 and get 1 free; or buy 10, get 1 free.

D290 Full Truckload Allowance

D340 Goods and Services Charge

D440 Groupage Discount

Use to indicate a discount applicable to a line item total purchase amount meeting or exceeding a specified threshold or range.

D500 Handling

D530 Hazardous Cargo Charge

D660 Hook-up Charge

D820 Inside Delivery

D870 Inspection

D890 Installation and Training

D900 Installation

E340 Less Than Truckload (LTL) Charge

Use to indicate a charge for less than a full carload or truckload.

E400 Loading (Labor Charges)

E930 One-Day Service

F150 Packaging Service

F460 Postage

F560 Premium Transportation

F830 Proof of Delivery

Use to indicate a charge for preparation of a DD Form 250.

### F910 Quantity Discount

Use to indicate a step ladder discount applicable to a quantity range. The discount specified for the quantity range containing the total line item quantity is the discount to be applied to the unit price. This is contrast to the C300 incremental discount that applies to that portion of the total line item quantity within each increment.

G030 Reconnect Charge

G350 Rents and Leases

G470 Restocking Charge

G530 Rework

G580 Royalties

G600 Same-Day Service

G610 Saturday Delivery

G660 Scrap Allowance

G740 Service Charge

Use to indicate a basic charge for a service call.

Segment: DTM Date/Time Reference

**Position:** 150

Loop:

Level: Heading Usage: Optional Max Use: 10

**Purpose:** To specify pertinent dates and times

**Syntax Notes:** 1 At least one of DTM02 DTM03 or DTM05 is required.

2 If DTM04 is present, then DTM03 is required.

3 If either DTM05 or DTM06 is present, then the other is required.

**Semantic Notes:** 

**Comments:** 

Notes: Use this segment to identify dates applicable to the solicitation or the resulting

award instrument. Use the 2/DTM/200 segment for delivery and other dates that

apply to the line items.

Bid Open (Date Bids Will Be Opened)

099

Use in conjunction with the 1/BOT/020 segment, BQT07 code 03, to indicate the bid opening date and time. 106 Required By Use to indicate delivery is required exactly on the date specified. 174 Month Ending Use to indicate delivery is required within the specified month. In DTM02, identify the month and cite the last calendar day of the month. 193 Period Start 1. Use to indicate the start of a period of performance or lease. 2. When this code is used, there must be another iteration of this segment citing code 194 in DTM01. 194 Period End 1. Use to indicate the end of a period of performance or lease. 2. When this code is used, there must be another iteration of this segment citing code 193 in **DTM01**. 368 Submittal When REF01 is Code TN, use to indicate the date of a related transaction set. 375 **Delivery Start** 1. Use to indicate the start date/time for deliveries when the total quantity is to be delivered during a specified period. 2. When this code is used, there must be another iteration of this segment citing code 376 in DTM01. 376 Delivery End 1. Use to indicate the end date/time when the total quantity is to be delivered during a specified period. 2. When this code is used, there must be another iteration of this segment citing code 375 in DTM01. 565 Date of Property Inspection Use in conjunction with the 1/N1/310 segment,N101 code EL, to indicate the date and time of a site or property inspection.

|          |   |   | 644  | Meeting   |                         |  |

|          |   |   | code RTM in DTM  | ntify a time range for deliveries on a sp<br>106 to qualify a delivery time range, e.<br>1:00 PM and 4:00 PM local time. Use<br>30, 1994 date.  | g., for March           |  |

LDT Lead Time **Segment:** 

**Position:** 160

Loop:

Level: Heading Usage: **Optional** Max Use:

**Purpose:** 

To specify lead time for availability of products and services

**Syntax Notes:** 

**Semantic Notes:** 1 LDT04 is the effective date of lead time information.

**Comments:** LDT02 is the quantity of unit of time periods.

**Notes:** 1. Use this segment to identify time periods that quotes must remain valid for

acceptance.

2. This segment can be also used to identify a delivery schedule that applies to all of the line items in a solicitation for a basic award instrument. When the delivery lead time varies by line item in a solicitation for a basic award instrument, use the 2/LDT/302 segment.

Segment: PID Product/Item Description

**Position:** 190

Loop:

Level: Heading Usage: Optional Max Use: 200

Purpose: To

To describe a product or process in coded or free-form format

Syntax Notes: 1 If PII

- If PID04 is present, then PID03 is required.
   At least one of PID04 or PID05 is required.
- 3 If PID07 is present, then PID03 is required.
- 4 If PID08 is present, then PID04 is required.
- 5 If PID09 is present, then PID05 is required.

**Semantic Notes:** 

- Use PID03 to indicate the organization that publishes the code list being referred to.
- 2 PID04 should be used for industry-specific product description codes.
- 3 PID08 describes the physical characteristics of the product identified in PID04. A "Y" indicates that the specified attribute applies to this item; an "N" indicates it does not apply. Any other value is indeterminate.
- 4 PID09 is used to identify the language being used in PID05.

**Comments:** 

- 1 If PID01 equals "F", then PID05 is used. If PID01 equals "S", then PID04 is used. If PID01 equals "X", then both PID04 and PID05 are used.
- 2 Use PID06 when necessary to refer to the product surface or layer being described in the segment.
- 3 PID07 specifies the individual code list of the agency specified in PID03.

**Notes:** 

- 1. Use this segment to provide an overall description of the solicitation that applies to all line items or the title of a grant. When descriptions vary by line item, transmit a general description in this segment and use the 2/PID/050 segment to transmit the varying descriptions.
- 2. Use is discouraged. Whenever possible, items should be described by successive iterations of 235/234 pairs in the 2/PO1/010 segment or by reference number. Use codified data whenever possible.

### **Data Element Summary**

|          | Ref.  | Data           |  |              |                |

Segment: MEA Measurements

Position: 200

Loop:

Level: Heading Usage: Optional Max Use: 40

**Purpose:** To specify physical measurements or counts, including dimensions, tolerances,

variances, and weights (See Figures Appendix for example of use of C001)

**Syntax Notes:** 1 At least one of MEA03 MEA05 MEA06 or MEA08 is required.

2 If MEA05 is present, then MEA04 is required.3 If MEA06 is present, then MEA04 is required.

4 If MEA07 is present, then at least one of MEA03 MEA05 or MEA06 is required.

5 Only one of MEA08 or MEA03 may be present.

**Semantic Notes:** 1 MEA04 defines the unit of measure for MEA03, MEA05, and MEA06.

**Comments:** 1 When citing dimensional tolerances, any measurement requiring a sign (+ or -), or any measurement where a positive (+) value cannot be assumed, use MEA05

as the negative (-) value and MEA06 as the positive (+) value.

Notes: 1. Use this segment to provide information that applies to all of the line items. If information varies by line item, use the 2/MEA/049 segment.

2. This segment can be used to provide measurements applicable to the solicitation including: the percents or rank order for the evaluation factors that will be used for this procurement; the maximum size standards for the Standard Industrial Classification (SIC) Code or North American Industry Classification System (NAICS) Code applicable to this procurement; the time periods for ordering restrictions; quantity variations; and the length of a required warranty.

## **Data Element Summary**

| Ref.  | Data           |                               |                   |
|-------|----------------|-------------------------------|-------------------|
| Des.  | <b>Element</b> | <u>Name</u>                   | <u>Attributes</u> |
| MEA01 | 737            | Measurement Reference ID Code | O ID 2/2          |

Code identifying the broad category to which a measurement applies *Use any code*.

### BT Batch Limits

When BQT06 is code KB, KD, KE, KI, KQ, or KR, use to indicate the minimum and maximum limits of the Government's obligation to order either in terms of dollars or quantity under a basic type award instrument. When BQT06 is code KT or RL, use to indicate the minimum and maximum limits of the Government's obligation to order either in terms of dollars or quantity under the specific Task Order or Delivery Order. Use MEA04-C00101 to identify the unit of measure (dollars, each, etc.) and use MEA05/06 to specify the minimum and maximum.

CS Core Size

Use in conjunction with the 1/REF/050 segment, REF01 code PG or code IJ, to indicate the maximum size standard, either as the number of employees or the annual revenue, for the cited NAICS code or SIC code. Identify the maximum size in MEA03 and the basis (revenue or employees) in MEA04-C00101.

### EF Evaluation Factors

Use in conjunction with an applicable MEA02 code to indicate the evaluation factors used for this procurement.

### LT Lot Limits

Use to indicate the minimum and maximum limits of the contractor's obligation either in terms of dollars or quantity to deliver under a basic type award instrument. Do not use for a purchase order or a delivery order. Use MEA04-C00101 to identify the unit of measure (dollars, each, etc.) and use MEA05/06 to specify the minimum and maximum.

### OL Order Limits

Use to indicate the maximum the Government may order from a basic type procurement instrument in a specified time period. Do not use for a purchase order or a delivery order. Use MEA03 to identify the quantity, MEA04-C00101 to identify the unit of measure, and MEA04-C00104 to identify the time period.

### PM Permitted

Use to indicate the minimum and maximum quantity or dollars permitted per order against a basic type award instrument. Use MEA04-C00101 to identify the unit of measure (dollars, each, etc.) and use MEA05/06 to specify the minimum and maximum.

## QV Quantity Variation

Use to indicate variations in quantity that are permitted. When the quantity variation is expressed as a discrete quantity, cite in MEA04-C00101, the same code cited in PO103 of all of the 1/PO1/010 loops to which the quantity variation applies, e.g., EA, LB, etc., and specify the quantity under and/or over in MEA05/06. If the quantity variation is expressed as a percent, cite code P1 in MEA04-C00101.

### RS Response Time

Use to indicate the number of days within which the contractor must reject an order exceeding the maximum order limitations per FAR clause 52.216-19.

### WR Warranty

Use in conjunction with the 1/CSH/110 segment, CSH01 code WY and MEA03/04-1 to indicate a warranty period.

Refer to 004010 Data Element Dictionary for acceptable code values.

### MEA02 738 Measurement Qualifier

O ID 1/3

Code identifying a specific product or process characteristic to which a measurement applies

COS Cost

Use in conjunction with MEA01 code EF, to identify the evaluation factor to which the measurement value in MEA03 applies.

CSR Cost Realism

Use in conjunction with MEA01 code EF, to identify the evaluation factor to which the measurement value in MEA03 applies.

DIS Dispersion

Use in conjunction with MEA01 code EF, to indicate an evaluation factor for industrial base consideration to which the measurement value in MEA03 applies.

HK Human Factors

Use in conjunction with MEA01 code EF, to identify the evaluation factor to which the measurement value in MEA03 applies.

MM Management

Use in conjunction with MEA01 code EF, to identify the evaluation factor to which the measurement value in MEA03 applies.

MX Maximum

1. Use in conjunction with MEA01 code CS to indicate he maximum size standard applicable to the SIC or NAICS code specified in the 1/REF/050 segment.

2. Use in conjunction with MEA01 code OL to indicate the maximum amount that can be ordered in a specified time period.

OTT Others Total

Use in conjunction with MEA01 code EF, to identify an evaluation factor value not otherwise associated with another code to which the measurement value in MEA03 applies.

P1 Price

Use in conjunction with MEA01 code EF, to identify the evaluation factor to which the measurement value in MEA03 applies.

PRE Prior Experience

Use in conjunction with MEA01 code EF, to identify the evaluation factor to which the measurement value in MEA03 applies.

PSP Past Performance

Use in conjunction with MEA01 code EF, to identify the evaluation factor to which the measurement value in MEA03 applies.

QL Quality

Use in conjunction with MEA01 code EF, to identify the evaluation factor to which the measurement value in MEA03 applies.

RY Ratio

When BQT08 is code CA, CH, CY, FB, FC, FF, or FG, use to indicate the Government and contractor share ratio. Identify the Government share in MEA05 and the contractor share in MEA06.

SCH Schedule

Use in conjunction with MEA01 code EF, to identify the evaluation factor to which the measurement value in MEA03 applies.

T3 Technical

Use in conjunction with MEA01 code EF, to identify the evaluation factor to which the measurement value in MEA03 applies.

TT Time

Use in conjunction with MEA01 code WR to indicate the length of a warranty period. Specify the length of time in MEA03 and the time period in MEA04-C00101.

ZZZ Mutually Defined

Use this code to indicate minimum guarantee award quantity percentage, minimum guarantee award quantity/amount, maximum ceiling award quantity/amount, and minimum guarantee award amount percentage. When this code is used to specify minimum guarantee award quantity or maximum ceiling award quantity, cite code EA in MEA04-C00101, the minimum quantity in MEA05 or the maximum quantity in MEA06. To specify minimum guarantee award amount or maximum ceiling award amount, cite code DO in MEA04-C00101, the minimum amount in MEA05 or the maximum amount in MEA06. To specify minimum guarantee award amount percentage,

cite code DO in MEA04-C00101, code P1 in MEA04-04, and the minimum amount percentage in MEA05. To specify minimum guarantee award quantity percentage, cite code EA in MEA04-C00101, code P1 in MEA04-04, and the minimum quantity percentage in MEA05.

MEA03 739 Measurement Value

X R 1/20

The value of the measurement

## **MEA04** C001 Composite Unit of Measure

X

To identify a composite unit of measure (See Figures Appendix for examples of use)

- 1. This composite unit of measure can be used to indicate the maximum that may be ordered during a specified period of time under a basic type award instrument and to specify the minimum guaranteed award amount/quantity percentage.
- 2. For example: If the maximum that can be ordered per quarter is 10,000 each, then MEA01 would cite code OL, MEA02 would cite MX, MEA03 would cite 10,000, MEA04-C00101 would cite EA, and MEA04-C00104 would cite Q1.
- 3. To specify the minimum guarantee award amount/quantity percentage, cite code ZZZ in MEA02, either code DO or EA in MEA04-C00101 and code P1 in MEA04-C00104.

### M C00101 355

### **Unit or Basis for Measurement Code**

M ID 2/2

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

1. Use any code other than code ZZ. Use the listed codes in accordance with the code notes.

## IE Person

Use in conjunction with MEA01 code CS, to indicate the SIC or NAICS size standard in terms of number of employees.

### **R5** Thousands of Dollars

Use in conjunction with MEA01 code CS, to indicate the SIC or NAICS size standard in terms of dollar amount of sales.

### **R6** Millions of Dollars

Use in conjunction with MEA01 code CS, to indicate the SIC or NAICS size standard in terms of dollar amount of sales.

2. When MEA01 is code QV, the code cited in MEA04-C00101 MUST be code P1 or the same code cited in PO103 of all the 2/PO1/010 segment.

- 3. Use codes DA, LL, MO, and YR in conjunction with MEA01 code WR.
- 4. When MEA01 is Code EF, either code P1 or code UN, should be used in conjunction with an appropriate code in MEA02. Use of code P1 indicates the evaluation factor is expressed as a percent. Use of code UN indicates that the evaluation factor is expressed as a rank order, e.g., the number 2 would indicate the evaluation factor is the second in the order of precedence.
- 5. When MEA01 is code RS, cite code DA.
- 6. When MEA01 is any other code, cite an applicable unit of measure code.
- 7. An application program conversion table may be required to convert agency codes to ASC X12 codes.

Refer to 004010 Data Element Dictionary for acceptable code values.

|          |        |            | The value specifying the minimum of the measurement ra   | nge   |           |

The value specifying the minimum of the measurement range

- 1. When MEA01 is code QV, use to specify the variation in quantity under.
- 2. When MEA01 is code BT, LT, or PM, use to specify the minimum amount or quantity.
- 3. When MEA02 is RY, use to specify the Government share.
- 4. When MEA02 is code ZZZ, MEA04-C00101 is code EA and MEA04 -C00104 is code P1, use to specify the minimum guarantee award quantity percentage.
- 5. When MEA02 is code ZZZ and MEA04-C00101 is code EA, use to specify the minimum guarantee award quantity.
- 6. When MEA02 is code ZZZ, MEA04-C00101 is code DO and MEA04 -C00404 is code P1, use to specify the minimum guarantee award amount percentage.
- 7. When MEA02 is code ZZZ and MEA04-C00101 is code DO, use to specify the minimum guarantee award amount.
- 8. Percents will be cited as follows: 4.25% will be cited as 4.25; 3% will be cited as 3 (note: leading and trailing zeros are suppressed).

#### MEA06 741 Range Maximum

X R 1/20

The value specifying the maximum of the measurement range

- 1. When MEA01 is code QV, use to specify the variation in quantity over.
- 2. When MEA01 is code BT, LT, or PM, use to specify the maximum amount or quantity.

|          |       |      | <ol> <li>When MEA02 is RY, use to specify the contractor share.</li> <li>When MEA02 is code ZZZ and MEA04-C00101 is conspecify the maximum ceiling award quantity.</li> <li>When MEA02 is code ZZZ and MEA04-C00101 is conspecify the maximum ceiling award amount.</li> <li>Percents will be cited as follows: 4.25% will be cited at the cited and the cited as follows:</li> </ol> | de E. | 00, use to<br>25; 3% will |

Segment: PWK Paperwork

**Position:** 210

Loop:

Level: Heading Usage: Optional Max Use: 25

Purpose: To

To identify the type or transmission or both of paperwork or supporting information

Syntax Notes:

**Semantic Notes:** 

**Comments:** 

1 PWK05 and PWK06 may be used to identify the addressee by a code number.

**2** PWK07 may be used to indicate special information to be shown on the specified report.

If either PWK05 or PWK06 is present, then the other is required.

3 PWK08 may be used to indicate action pertaining to a report.

Notes: 1. Use this segment when the paperwork information applies to all of the line items. Use the 2/PWK/070 segment if the information varies by line item.

2. Use this segment to identify paperwork required to be provided by the offeror in response to the solicitation, or paperwork that will be required under the resultant award instrument, or paperwork being provided as part of the solicitation and, if necessary, how that paperwork will be transmitted.

| DA | Data   |         |        |          |      |                        |  |  |
|    | Use i  | in conj | iuncti | ion with | PV   | WK07 to indicate other |  |  |

## forms of electronic transfer.

EL Electronically Only

- 1. Use to indicate that data has been or should be sent by a separate EDI transaction set.
- 2. If the data has been sent by a separate EDI transaction set, use the 1/REF/050 segment, REF01 code TN, to identify the unique number of the transaction set.

EM E-Mail

FT File Transfer

Use to indicate an FTP site. Provide the FTP

address in PWK07.

FX By Fax

IA Electronic Image

Use, in conjunction with PWK08-01, code PV, to indicate the World Wide Web. When used, provide the Universal Resource Locator (URL) where information is to be obtained in PWK07.

WS With Shipment (With Package)

## PWK03 757 Report Copies Needed

O N0 1/2

The number of copies of a report that should be sent to the addressee The number of copies is assumed to be 1 unless a greater number is

The number of copies is assumed to be I unless a greater number is specified in this data element.

## PWK04 98 Entity Identifier Code

O ID 2/3

Code identifying an organizational entity, a physical location, property or an individual

Use in conjunction with the same N101 code values in the 1/N1/310 segment to identify the recipient of the paperwork. If there is more than one recipient for the same paperwork item, use multiple repetitions of the PWK segment with the same report code in PWK01. Optionally, identify the communications number of the recipient in the 1/PER/360 segment.

7D Contracting Officer Representative

7N Party to Receive Proposal BY Buying Party (Purchaser)

Use to indicate the Contracting Officer.

C4 Contract Administration Office

HMI Material Safety Data Sheet (MSDS) Recipient

Use in conjunction with PWK01 code MS to indicate the Agency's Hazardous Material

Information System (HMIS) central focal point to whom Material Safety Data Sheets are to be sent.

Segment: PKG Marking, Packaging, Loading

**Position:** 220

Loop:

Level: Heading Usage: Optional Max Use: 200

**Purpose:** To describe marking, packaging, loading, and unloading requirements

**Syntax Notes:** 1 At least one of PKG04 PKG05 or PKG06 is required.

- 2 If PKG04 is present, then PKG03 is required.
- 3 If PKG05 is present, then PKG01 is required.

**Semantic Notes:** 

**Comments:** 

- PKG04 should be used for industry-specific packaging description codes.
   Use the MEA (Measurements) Segment to define dimensions, tolerances,
- weights, counts, physical restrictions, etc.
  If PKG01 equals "F", then PKG05 is used. If PKG01 equals "S", then PKG04 is used. If PKG01 equals "X", then both PKG04 and PKG05 are used.
- 3 Use PKG03 to indicate the organization that publishes the code list being referred to.
- 4 Special marking or tagging data can be given in PKG05 (description).

**Notes:** 

- 1. Use this segment to identify packaging requirements that apply to all of the line items. If the packaging requirements vary by line item, use the 2/PKG/080 or 2/PKG/450 segment.
- 2. Packaging information such as the number of items in a unit container; the number of unit containers in an intermediate container; and the gross weight, cube and dimensions of a unit or intermediate container is carried in the 2/PO4/090 segment.
- 3. The use of MILSTD 2073-1C codes to identify packaging requirements for items in this award instrument are primarily for items that are expected to enter the military distribution system. Commercial packaging is expected to be used to the maximum extent possible for all other items.
- 4. Commercial packaging requirements are specified by the use of PWK02 code PK, and citing the corresponding code U in PKG04.

Code identifying loading or unloading a shipment

01 Palletized10 Shrink-wrap

Segment: TD5 Carrier Details (Routing Sequence/Transit Time)

**Position:** 240

Loop:

Level: Heading Usage: Optional Max Use: 12

Purpose: T

To specify the carrier and sequence of routing and provide transit time information

**Syntax Notes:** 

1 At least one of TD502 TD504 TD505 TD506 or TD512 is required.

2 If TD502 is present, then TD503 is required.

3 If TD507 is present, then TD508 is required.

4 If TD510 is present, then TD511 is required.

5 If TD513 is present, then TD512 is required.

6 If TD514 is present, then TD513 is required.

7 If TD515 is present, then TD512 is required.

**Semantic Notes:** 

1 TD515 is the country where the service is to be performed.

**Comments:** 

1 When specifying a routing sequence to be used for the shipment movement in lieu of specifying each carrier within the movement, use TD502 to identify the party responsible for defining the routing sequence, and use TD503 to identify the actual routing sequence, specified by the party identified in TD502.

Notes:

Use this segment to identify the transportation method that is applicable to all of

the line items. If the transportation method varies by line item, use the

2/TD5/250 segment.

Segment: TD4 Carrier Details (Special Handling, or Hazardous Materials, or Both)

**Position:** 260

Loop:

Level: Heading Usage: Optional

Max Use: 5

**Purpose:** To specify transportation special handling requirements, or hazardous materials

information, or both

**Syntax Notes:** 1 At least one of TD401 TD402 or TD404 is required.

2 If TD402 is present, then TD403 is required.

**Semantic Notes:** 1 TD405 identifies if a Material Safety Data Sheet (MSDS) exists for this

product. A "Y" indicates an MSDS exists for this product; an "N" indicates an

MSDS does not exist for this product.

**Comments:** 

Notes: Use this segment to provide special handling or hazardous material information

when it applies to all of the line items. If this information varies by line item,

use the 2/TD4/270 segment.

## **Data Element Summary**

Segment: MAN Marks and Numbers

**Position:** 270

Loop:

Level: Heading Usage: Optional Max Use: 10

Purpose:

To indicate identifying marks and numbers for shipping containers

1. If either MANOA or MANO5 is present, then the other is required.

**Syntax Notes:** 1 If either MAN04 or MAN05 is present, then the other is required.

2 If MAN06 is present, then MAN05 is required.

**Semantic Notes:** 

- 1 MAN01/MAN02 and MAN04/MAN05 may be used to identify two different marks and numbers assigned to the same physical container.
- **2** When both MAN02 and MAN03 are used, MAN02 is the starting number of a sequential range and MAN03 is the ending number of that range.
- **3** When both MAN05 and MAN06 are used, MAN05 is the starting number of a sequential range, and MAN06 is the ending number of that range.

**Comments:** 

- 1 When MAN01 contains code "UC" (U.P.C. Shipping Container Code) and MAN05/MAN06 contain a range of ID numbers, MAN03 is not used. The reason for this is that the U.P.C. Shipping Container code is the same on every carton that is represented in the range in MAN05/MAN06.
- 2 MAN03 and/or MAN06 are only used when sending a range(s) of ID numbers. When both MAN02/MAN03 and MAN05/MAN06 are used to send ranges of ID numbers, the integrity of the two ID numbers must be maintained.

**Notes:** 

- 1. Use this segment when the marks and numbers apply to all of the line items. If the information varies by line item, use the 2/MAN/280 segment.
- 2. Use to identify such data as MILSTRIP/DLMS/FEDSTRIP number, transportation control number, project priority number, and consignee related codes.

Use to indicate the reference number that requires an offeror to provide a certification, representation or other information. This reference number will be a clause number or some unique reference number previously provided to offerors.

## **RRA02** 127 Reference Identification

O AN 1/30

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Segment: N9 Reference Identification

**Position:** 290

Loop: N9 Optional

Level: Heading Usage: Optional

Max Use: 1

**Purpose:** To transmit identifying information as specified by the Reference Identification

Qualifier

**Syntax Notes:** 1 At least one of N902 or N903 is required.

- 2 If N906 is present, then N905 is required.
- 3 If either C04003 or C04004 is present, then the other is required.
- 4 If either C04005 or C04006 is present, then the other is required.

**Semantic Notes:** 1 N906 reflects the time zone which the time reflects.

N907 contains data relating to the value cited in N902.

### **Comments:**

**Notes:** 

Ref.

Data

- 1. Use this loop to identify various clauses (e.g., Federal Acquisition Regulation (FAR), Defense Federal Acquisition Regulation Supplement (DFARS), General Services Acquisition Regulation Supplement (GSARS), Department of Veterans Affairs Acquisition Regulation Supplement (VAARS), Agency, or other clauses), Office of Management and Budget (OMB) Circular, special instructions or other references which are applicable to the entire solicitation. If the information varies by line item, use the 2/N9/320 loop.
- 2. When an Alternate section is applicable to a cited clause, the alpha/numeric Alternate identifier and the date MUST be cited in the following MSG segment.
- 3. When citing a clause in N902, the date of the clause MUST be cited in N904 and the title of the clause may optionally be cited in the following MSG segment.
- 4. When BQT01 in the 1/BQT/020 segment is code 05, one iteration of this segment is REQUIRED citing code K7 in N901, the literal, "Reason for Amendment" in N903, and the reason in the 1/MSG/300 segment.

# **Data Element Summary**

|              |      |                |                     | legislative program title in N903.      |                   |  |  |  |
|              |      |                | 73                  | Statement of Work (SOW)                 |                   |  |  |  |

If a Statement of Work is part of the solicitation, the 1/PWK/210 segment can be optionally used to

|     | identify how it is being provided.  |
|-----|---|
| ADA | Agency for International Development Acquisition<br>Regulation (AIDAR)  |
|     | Use in conjunction with N904 to indicate a clause from the cited regulation.  |
| AU  | Authorization to Meet Competition Number  |
|     | Use to indicate the FAR part 6 authority for using other than full and open competition.  |
| CJ  | Clause Number   |
|     | 1. Use to indicate a purchasing activity clause   |
|     | (i.e., a clause not found in FAR, DFARS, etc.).  Identify the purchasing activity issuing the clause in N903.   |
|     | 2. DO NOT use for a purchasing activity payment related clause. Use code H5 in that instance.   |
| DF  | Defense Federal Acquisition Regulations (DFAR)  |
|     | 1. Use in conjunction with N904 to indicate a clause from the cited regulation.   |
|     | 2. If the DFARS clause has a Modification, Variation or Deviation, identify that condition in N903 and provide the full clause text in the following MSG segment. |
| DHH | Department of Health and Human Services Acquisition Regulation (HHSAR)  |
|     | Use in conjunction with N904 to indicate a clause from the cited regulation.  |
| DOA | Department of Agriculture Acquisition Regulation (AGAR)   |
|     | Use in conjunction with N904 to indicate a clause from the cited regulation.  |
| DOC | Department of Commerce Acquisition Regulation (CAR)   |
|     | Use in conjunction with N904 to indicate a clause from the cited regulation.  |
| DOE | Department of Energy Acquisition Regulation (DEAR)  |
|     | Use in conjunction with N904 to indicate a clause from the cited regulation.  |
| DOI | Department of Interior Acquisition Regulation (DIAR)  |
|     | Use in conjunction with N904 to indicate a clause from the cited regulation.  |
| DOJ | Department of Justice Acquisition Regulation (JAR)  |
|     | Use in conjunction with N904 to indicate a clause   |
|     |   |

from the cited regulation. DOL Department of Labor Acquisition Regulation (DOLAR) Use in conjunction with N904 to indicate a clause from the cited regulation. DOS Department of State Acquisition Regulation (DOSAR) Use in conjunction with N904 to indicate a clause from the cited regulation. DOT Department of Transportation Acquisition Regulation (TAR) Use in conjunction with N904 to indicate a clause from the cited regulation. DTS Department of the Treasury Acquisition/Procurement Regulation (TAPR) Use in conjunction with N904 to indicate a clause from the cited regulation. DX Department/Agency Number 1. Use to indicate an Agency clause and identify the agency in N903. 2. DO NOT use for an Agency payment related clause. Use code H5 in that instance. EC Circular Use to indicate an Office of Management and Budget (OMB) circular number. **EDA** Department of Education Acquisition Regulation (EDAR) Use in conjunction with N904 to indicate a clause from the cited regulation. **EPA** Environmental Protection Agency Acquisition Regulation (EPAAR) Use in conjunction with N904 to indicate a clause from the cited regulation. FA Federal Acquisition Regulations (FAR) 1. Use in conjunction with N904 to indicate a clause from the cited regulation. 2. If the FAR clause has a Modification, Variation or Deviation, identify that condition in N903 and provide the full clause text in the following MSG segment. GS General Services Administration Regulations (GSAR) Use in conjunction with N904 to indicate a clause from the cited regulation.

H5 Special Clause

- 1. Use this code only to indicate local, purchasing activity or agency payment related information.
- 2. DO NOT use for a FAR or DFARS payment related clause. Use either code FA or DF in that instance.

HT Code of Federal Regulations

HUD Department of Housing and Urban Development Acquisition Regulation (HUDAR)

Use in conjunction with N904 to indicate a clause from the cited regulation.

K7 Paragraph Number

- 1. Use in conjunction with the 1/MSG/300 segment, to indicate information for an offeror. Cite an applicable number in N902 and provide the information in the 1/MSG/300 segment. The numbering system can be based on the uniform contract format, e.g., H-1 for special requirements or any other numbering system the originator desires.
- 2. DO NOT use for payment related information. Use code H5 for that purpose.
- KD Special Instructions Number
  - 1. Use to indicate a special instruction. Use in conjunction with N903 to identify the agency, command or purchasing activity issuing the special instruction. If this special instruction number is not included in previously provided terms and conditions, provide the full text in the following MSG segment.
  - 2. DO NOT use for payment related information. Use code H5 for that purpose.
- KT Request for Quotation Reference
  - 1. Use to indicate another type of reference number applicable to the solicitation. This number is not the solicitation number (which is carried in BQT02). This code can be used as a means to provide clear text information, i.e., Notice to Bidders, in the following MSG segment. Another example of the use of this code can be to provide the reason for the cancellation of the solicitation.

2. DO NOT use for payment related information. Use code H5 for that purpose. KY Site Specific Procedures, Terms, and Conditions DO NOT use for payment related information. Use code H5 for that purpose. ΚZ Master Solicitation Procedures, Terms, and Conditions 1. Use to indicate the Master Solicitation number that contains terms and conditions applicable to this solicitation. 2. DO NOT use for payment related information. Use code H5 for that purpose. NAS National Aeronautics and Space Administration FAR Supplement (NFS) Use in conjunction with N904 to indicate a clause from the cited regulation. VB Department of Veterans Affairs Acquisition Regulations (VAAR) Use in conjunction with N904 to indicate a clause from the cited regulation. XY Other Unlisted Type of Reference Number Use in conjunction with N903 and optionally with the 1/MSG/300 segment to indicate any other reference that cannot use a specific qualifier code. Reference Identification X AN 1/30

#### N902 127

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

#### N903 369 **Free-form Description**

X AN 1/45

Free-form descriptive text

- 1. When N901 is code CJ, DX, or KD, use to identify the agency or purchasing activity issuing the clause or special instruction cited in N902.
- 2. When N901 is code XY, use to identify the source of the reference and use the following MSG segment for text, if necessary.
- 3. When N901 is code DF or FA and the clause has a Modification, Variation, or Deviation, identify that condition by citing "VAR" for Modification and Variations, and "DEV" for Deviation.
- 4. Use also to carry additional information related to the reference cited in N902.
- 5. Use of free-form text is discouraged if the information can be provided by some other means within the transaction set.

|          | N904   | 373  | Date   |   | o      | <b>DT 8/8</b> |  |
|----------|--------|------|--|---|--------|---------------|--|
|          |        |      | Date expressed as CCYYMMDD  Use to identify the date of the clause cited in N902. The DD (day)  portion of the date is always 01.  |   |        |               |  |
|          |        |      |  |   |        |               |  |

C04004 127 Reference Identification X AN 1/30

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

C04005 128 Reference Identification Qualifier X ID 2/3

Code qualifying the Reference Identification

C7 Contract Line Item Number

Use to indicate a CLIN to which the clause or

instruction cited in N902 applies.

FJ Line Item Control Number

Use to indicate a CLIN to which the clause or instruction cited in N902 DOES NOT apply.

C04006 127 Reference Identification X AN 1/30

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Segment: MSG Message Text

**Position:** 300

Loop: N9 Optional

Level: Heading Usage: Optional Max Use: 1000

**Purpose:** To provide a free-form format that allows the transmission of text information

**Syntax Notes:** 1 If MSG03 is present, then MSG02 is required.

**Semantic Notes:** 1 MSG03 is the number of lines to advance before printing.

**Comments:** 1 MSG02 is not related to the specific characteristics of a printer, but identifies top of page, advance a line, etc.

2 If MSG02 is "AA - Advance the specified number of lines before print" then MSG03 is required.

**Notes:** 

- 1. Use this segment to carry the title or full text of any clause, a special instruction, or other information associated with the number cited in N902.
- 2. This segment is also used to carry clause fill-in information that is not provided elsewhere within the transaction set. Use of clause titles when providing fill-in information is recommended.
- 3. When providing fill-in information, the following format is recommended:
- a) In the first iteration of the segment, cite the clause title, and the clause Alternate identifier with date, if applicable, followed by a pipe sign to indicate the end of the title information, then cite the number of fill-ins followed by a second pipe sign to indicate the end of the title segment.
- b) For each fill-in, begin a new MSG segment using the sequence in which the fill-ins appear within the clause. These MSG segments may each begin with a number indicating the fill-in's sequence position. End each fill-in with a pipe sign. If multiple iterations of MSG are required for a long fill-in, end only the last MSG segment of that fill-in with the pipe sign.
- 4. The purpose of the pipe sign "|" is to provide an indication to receiving applications that the data string related to a single entry has been completed.

An example of a clause with 3 fill-ins follows:

MSG\*Commencement, Prosecution, and Completion of Work Alternate I/3/MSG\*1. 30/

MSG\*2. 30 Sep 1995/

MSG\*3. 15 Jan 1995/

5. An example alternative format provides all fill-in information within the title MSG segment as follows:

MSG\*Commencement, Prosecution, and Completion of Work Alternate

# I/3/30/Sep 30, 1995/Jan 15, 1995/

|          | Ref.  | Data           |  |       |                |
|----------|-------|----------------|--|-------|----------------|
|          | Des.  | <b>Element</b> | <u>Name</u>  | Att   | <u>ributes</u> |
| M        | MSG01 | 933            | Free-Form Message Text   | M     | AN 1/264       |
|          |       |                | Free-form message text   |       |                |
| Not Used | MSG02 | 934            | Printer Carriage Control Code                                  | X     | ID 2/2         |
|          |       |                | A field to be used for the control of the line feed of the rec | eivii | ng printer     |
| Not Used | MSG03 | 1470           | Number   | 0     | N0 1/9         |
|          |       |                | A generic number   |       |                |

Segment: N1 Name

**Position:** 310

**Loop:** N1 Optional (Must Use)

Level: Heading

**Usage:** Optional (Must Use)

Max Use: 1

**Purpose:** To identify a party by type of organization, name, and code

**Syntax Notes:** 1 At least one of N102 or N103 is required.

2 If either N103 or N104 is present, then the other is required.

**Semantic Notes:** 

**Comments:** 

- 1 This segment, used alone, provides the most efficient method of providing organizational identification. To obtain this efficiency the "ID Code" (N104) must provide a key to the table maintained by the transaction processing party.
- 2 N105 and N106 further define the type of entity in N101.

**Notes:** 

- 1. Use this loop to identify organizations or locations that apply to all the line items. If the information varies by line item, use the 2/N1/340 loop.
- 2. Whenever possible, identification and address information should be provided using N101, N103, and N104. Use N102 and segments N2 through N4, as applicable, when the address cannot be provided using one of the codes listed in N103.
- 3. There must be at least 1 iteration of this N1 segment using code BY in N101.

### **Data Element Summary**

location is neither at origin nor at destination.

7N Party to Receive Proposal BY Buying Party (Purchaser)

Use to indicate the soliciting activity.

CY Country

Use in conjunction with the 1/REF/050 segment, REF01 code 2E, and N103 code 38, to indicate the country to which a Foreign Military Sale applies.

DZ Delivery Zone

Use in conjunction with N103 code ZN, to indicate an area to which deliveries are expected to be made under a requirements or an indefinite delivery type award instrument.

EL Established Location

Use to indicate the location where existing site conditions or existing equipment conditions can be inspected by the offeror prior to submission of an offer for services or an offer for purchase of disposal property.

HMI Material Safety Data Sheet (MSDS) Recipient

Use to indicate the Agency's Hazardous Material Information System (HMIS) central focal point to whom Material Safety Data Sheets are to be sent.

IF International Freight Forwarder

Use in conjunction with the 1/FOB/080 segment,

FOB02 code IT.

IS Party to Receive Certified Inspection Report

KG Project Manager

Use to indicate the Government organization responsible for a project to include the advisor

under a Grant.

KW Bid Opening Location

Use in conjunction with the 1/DTM/150 segment, DTM01 code 099, to indicate the location of a bid opening, if the address is different than the address

of the soliciting activity.

KX Free on Board Point

Use to indicate the FOB point when it has to be described by a specific address rather than as a code value indicating either origin or destination. Applicable when FOB02 is code KE, KL or ZZ.

KY Technical Office

Use to indicate the technical office that has cognizance over the technical portion of the order,

if different than the office originating the order.

Do not use unless it is intended for the contractor to deal directly with the cited party.

KZ Acceptance Location

Use when the acceptance point is other than at origin or destination.

L1 Inspection Location

Use to indicate the inspection location when it has to be described as an address which is neither origin or destination.

MU Meeting Location

1. Use in conjunction with the 1/BQT/020, BQT01 code 24, and the 1/DTM/150 segment, DTM01 code 644, to indicate the location of a pre-solicitation conference if the address is different than the address of the soliciting activity.

2. Use in conjunction with the 1/BQT/020 segment, BQT01 code 00, 05, 07, or 18, and the 1/DTM/150 segment, DTM01 code 644, to indicate the location of a pre-proposal conference if the address is different than the address of the soliciting activity.

PO Party to Receive Invoice for Goods or Services

Use to indicate where invoice should be sent

PR Payer

PW Pick Up Address

Use to indicate the location where government property is to be picked up for repair or other disposition.

R6 Requester

Use to indicate the requesting agency/activity.

ST Ship To

If the address is an FPO or APO, cite code ST in N101, cite FPO or APO in N102 and in N401, cite the two letter identifier (AA for Miami, AE for New York, AP for San Francisco) in N402, and cite the zip code in N403.

SV Service Performance Site

Use to indicate the location where a service, e.g., grass cutting, is to be performed or where service for a product can be obtained.

TQ Third Party Reviewing Organization (TPO)

|         |      |    |  | Use to indicate the office for receipt of foreign disclosure sensitive information per DoD Directive 5230.25.   |

128

This loop is used to carry the security information which is normally provided in the Department of Defense Contract Security Classification Specification (DD Form 254). Information regarding the contractor, subcontractor, place of performance and cognizant security offices may not be available until after an award determination and may have to be provided in the eventual award instrument. The prospective offerors may be required to provide this information as part of their proposal.

|     |       |                | 334               | Re-evaluation Date   |
|     |       |                |                   | Use to indicate the biennial review date of the Contract Security Classification Specification.  |
|     |       |                | 703               | Retransmission Time Stamp  |
|     |       |                |                   | Use in conjunction with the 1/SPI/440 segment, SPI07 code 00, to indicate the date of the original Contract Security Classification Specification. |

X DT 8/8

Date expressed as CCYYMMDD

#### Not Used DTM03 337 Time X TM 4/8

Time expressed in 24-hour clock time as follows: HHMM, or HHMMSS, or HHMMSSD, or HHMMSSDD, where H = hours (00-23), M = minutes (00-59), S = integer seconds (00-59) and DD = decimal seconds; decimal seconds are expressed as follows: D = tenths (0-9) and DD = hundredths (00-99)

## Not Used DTM04 623 Time Code O ID 2/2

Code identifying the time. In accordance with International Standards Organization standard 8601, time can be specified by a + or - and an indication in hours in relation to Universal Time Coordinate (UTC) time; since + is a restricted character, + and - are substituted by P and M in the codes that follow

#### Not Used DTM05 1250 Date Time Period Format Qualifier X ID 2/3

Code indicating the date format, time format, or date and time format

#### Not Used DTM06 1251 Date Time Period X AN 1/35

Expression of a date, a time, or range of dates, times or dates and times

Segment: MSG Message Text

**Position:** 470

Loop: SPI Optional

Level: Heading
Usage: Optional
Max Use: 50

**Purpose:** To provide a free-form format that allows the transmission of text information

**Syntax Notes:** 1 If MSG03 is present, then MSG02 is required.

**Semantic Notes:** 1 MSG03 is the number of lines to advance before printing.

**Comments:** 1 MSG02 is not related to the specific characteristics of a printer, but identifies top of page, advance a line, etc.

2 If MSG02 is "AA - Advance the specified number of lines before print" then MSG03 is required.

Notes: 1. Use to provide information applicable to the Contract Security Classification

Specification, e.g., a general identification of the procurement or security

guidance in clear text.

2. Use of free form text is discouraged if the information can be provided by means of codes or data values within the transaction set.

|          | Ref.  | Data           |  |       |                |

Segment: N1 Name

**Position:** 490

Loop: N1 Optional

Level: Heading Usage: Optional

Max Use: 1

**Purpose:** To identify a party by type of organization, name, and code

**Syntax Notes:** 1 At least one of N102 or N103 is required.

2 If either N103 or N104 is present, then the other is required.

#### **Semantic Notes:**

**Comments:** 

- 1 This segment, used alone, provides the most efficient method of providing organizational identification. To obtain this efficiency the "ID Code" (N104) must provide a key to the table maintained by the transaction processing party.
- 2 N105 and N106 further define the type of entity in N101.

**Notes:** 

- 1. Use this loop to identify organizations or locations that apply to a Contract Security Classification Specification (DD Form 254). Persons affiliated with organizations may be identified in the 1/G61/540 segment.
- 2. Use of N101, N103, and N104 is REQUIRED to identify organizations or locations. Names and addresses, in text, may be additionally provided using segments N2 through N4. Use of text is discouraged.
- 3. If the address is an FPO or APO, use the appropriate code in N101, cite FPO or APO in N102 and in N401, cite the two letter identifier (AA for Miami, AE for New York, AP for San Francisco) in N402, and cite the zip code in N403.

Additional reference number or description to clarify a contact number *Use to provide the title or the office symbol of the party cited in G6102*.

Segment: MSG Message Text

**Position:** 550

**Notes:** 

**Loop:** N1 Optional

Level: Heading Usage: Optional Max Use: 50

**Purpose:** To provide a free-form format that allows the transmission of text information

**Syntax Notes:** 1 If MSG03 is present, then MSG02 is required.

**Semantic Notes:** 1 MSG03 is the number of lines to advance before printing.

**Comments:** 1 MSG02 is not related to the specific characteristics of a printer, but identifies top of page, advance a line, etc.

2 If MSG02 is "AA - Advance the specified number of lines before print" then MSG03 is required.

1. Use this segment to provide clear text information applicable to the entity cited

in the preceding N1 segment.

2. Use of free form text is discouraged if the information can be provided by means of codes or data values within the transaction set.

Segment: MSG Message Text

**Position:** 600

**Notes:** 

Loop: CB1 Optional

Level: Heading Usage: Optional Max Use: 50

**Purpose:** To provide a free-form format that allows the transmission of text information

**Syntax Notes:** 1 If MSG03 is present, then MSG02 is required.

**Semantic Notes:** 1 MSG03 is the number of lines to advance before printing.

**Comments:** 1 MSG02 is not related to the specific characteristics of a printer, but identifies top of page, advance a line, etc.

2 If MSG02 is "AA - Advance the specified number of lines before print" then MSG03 is required.

1. Use this segment to provide additional clear text information associated with a code cited in CB101.

2. Use of free form text is discouraged if the information can be provided by some other means within the transaction set.

PCT Percent Amounts **Segment:** 

**Position:** 610

> **PCT** Loop: **Optional**

Level: Heading **Usage: Optional** 

Max Use:

**Purpose:** To qualify percent amounts and supply percent amounts

**Syntax Notes: Semantic Notes: Comments:** 

**Notes:** Use this segment to carry percentages that apply to all of the items in the

solicitation. If the percentages vary by line item, use the 2/PCT/510 segment.

**Data Element Summary** 

Ref. Data

Des. Element Name **Attributes** M PCT01 **Percent Qualifier** M ID 1/2 1004

Code to qualify percent

RG Progress Payment Rate

> Use in conjunction with the 1/ITD/130 segment, ITD01 code 20, to indicate a Progress Payment rate

that is other than the customary rate.

RR Alternate Progress Payment Liquidation Rate

Use in conjunction with the 1/ITD/130 segment,

ITD01 code 20.

 $\mathbf{M}$ PCT02 954 Percent M R 1/10

Percentage expressed as a decimal

Cite 4.25% as .0425; cite 3% as .03 (note: leading and trailing zeros are

suppressed).

Segment: PO1 Baseline Item Data

**Position:** 010

**Loop:** PO1 Mandatory

Level: Detail
Usage: Mandatory

Max Use: 1

Purpose: To specify basic and most frequently used line item data

**Syntax Notes:** 1 If PO103 is present, then PO102 is required.

- 2 If PO105 is present, then PO104 is required.
- 3 If either PO106 or PO107 is present, then the other is required.
- 4 If either PO108 or PO109 is present, then the other is required.
- 5 If either PO110 or PO111 is present, then the other is required.
- 6 If either PO112 or PO113 is present, then the other is required.
- 7 If either PO114 or PO115 is present, then the other is required.
- **8** If either PO116 or PO117 is present, then the other is required.
- 9 If either PO118 or PO119 is present, then the other is required.
- 10 If either PO120 or PO121 is present, then the other is required.
- 11 If either PO122 or PO123 is present, then the other is required.
- 12 If either PO124 or PO125 is present, then the other is required.

## **Semantic Notes:**

#### **Comments:**

- 1 See the Data Element Dictionary for a complete list of IDs.
- 2 PO101 is the line item identification.
- 3 PO106 through PO125 provide for ten different product/service IDs per each item. For example: Case, Color, Drawing No., U.P.C. No., ISBN No., Model No., or SKU.

### **Notes:**

1. Use this loop to identify all information related to a Contract Line Item Number (CLIN), a Subcontract Line Item Number (SUBCLIN), or an Exhibit Line Item Number (ELIN). Each iteration of the PO1 loop will carry all information related to the CLIN, SUBCLIN or ELIN specified in PO101.

2. When BQT01 is code 01, 17, or code 05 and the amendment does not affect table 2, only PO101 need be transmitted.

| Ref.  | Data           |  |                   |
|-------|----------------|--|-------------------|
| Des.  | <b>Element</b> | <u>Name</u>  | <b>Attributes</b> |
| PO101 | 350            | Assigned Identification  | O AN 1/20         |
|       |                | Alphanumeric characters assigned for differentiation with set  | in a transaction  |
|       |                | 1. Use to identify the Contract Line Item Number (CLIN) Contract Line Item Number (SUBCLIN), or the Exhibit Number (ELIN), if one is assigned. | ′′                |
|       |                | 2. When BQT01 is code 01, 17, or code 05 and the amend affect table 2, cite the word "NONE" in this data element                               |                   |
| PO102 | 330            | <b>Quantity Ordered</b>  | X R 1/15          |

### Quantity ordered

- 1. Use in conjunction with PO103 to specify the quantity of the item being solicited. If prices for step ladder quantities are being solicited, PO102 will cite the base quantity that is being solicited and the step ladder quantities will be cited in the 2/CTP/040 segment.
- 2. Minimum and maximum quantities that will be ordered under a resultant Indefinite Delivery Indefinite Quantity (IDIQ) award instrument are specified in the 2/MEA/049 segment.
- 3. Do not use this data element at the CLIN level if the quantities are specified at the SUBCLIN level.

## PO103 355 Unit or Basis for Measurement Code

O ID 2/2

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

- 1. Use any code other than ZZ, but the listed code should be used as indicated by the note.
- 2. Do not use this data element at the CLIN level if the quantities are specified at the SUBCLIN level.
- 3. A conversion table may be required to convert agency codes to ASC X12 codes.

Refer to 004010 Data Element Dictionary for acceptable code values.

## PO104 212 Unit Price

X R 1/17

Price per unit of product, service, commodity, etc.

- 1. To comply with the X12 syntax, when PO105 is used, cite "0" in this data element.
- 2. Use in conjunction with PO105.

### PO105 639 Basis of Unit Price Code

KA

O ID 2/2

Code identifying the type of unit price for an item

CA Catalog
ES Estimated
FB Fabrication Cost

Use to indicate the price includes the incorporation of Government Furnished Property (GFP) into the item.

Price with Government Furnished Property

Use to indicate the price of the items includes the use of GFP to manufacture the item.

NC No Charge

NE Not to Exceed

NS Not Separately Priced

Use to indicate that the offerors are not to provide a price for this item but are to include the cost in the price of the item to which it pertains, e.g., data may not be separately priced.

PQ Posted

Use to indicate offerors are to provide a TOTAL price for the line item, NOT A UNIT PRICE.

TB To be negotiated.

## PO106 235 Product/Service ID Qualifier

X ID 2/2

Code identifying the type/source of the descriptive number used in Product/Service ID (234)

- 1. PO106 through PO125 are used in pairs, e.g., PO106 contains a qualifier code and PO107 contains data related to the code.
- 2. Any code, other than code A8, can be used, but the listed codes are preferred.
- AK Refined Product Code
- BL Brand/Label

Use to indicate the product's brand or model name, e.g., Trinitron is the Sony brand name for a TV or computer monitor.

## CG Commodity Grouping

Use to indicate a commodity code, e.g., the 2 position Federal Supply Group code.

### CH Country of Origin Code

When used, cite the two position ISO 3166 country code in the following 234 data element.

CL Color

DG Discount Grouping

Use to indicate a discount group to which the line item pertains.

### EF Exhibit Identifier

Use in conjunction with the 2/PER/110 segment, PER01 codes AU and PI, to indicate the letter assigned to an exhibit.

EN European Article Number (EAN)(2-5-5-1)

EQ Equipment Type

F1 Catalog Number

Use to indicate a catalog number that identifies the product.

## F7 End-Item Description

Use to indicate the end item to which the ordered item applies.

#### F8 Next Higher Used Assembly

Use to indicate the next higher assembly to which the ordered item applies.

### FS National Stock Number

The NSN shall be transmitted without dashes.

## FT Federal Supply Classification

Use to indicate the 4 position Federal Supply Classification code or Product Service code

## HI HIBC (Health Industry Bar Code)

## IN Buyer's Item Number

Use to indicate a locally assigned code for a product or service whenever stock number does not apply.

## KA Engineering Data List

Use to indicate the Engineering Data List that contains technical information related to the CLIN or SUBCLIN.

# KB Data Category Code

When PO101 is a CLIN or SUBCLIN related to an exhibit, use to indicate the data category of a Contract Data Requirements List.

- KD Replacement National Stock Number
- KF Item Type Number
- KG Time Compliant Technical Order
- KI Cognizance Symbol
- KJ Material Control Code
- KK Special Material Identification Code
- KL Item Management Code
- KM Shelf-Life Code
- KN Shelf-Life Action Code
- LT Lot Number
- MF Manufacturer

When used, cite the DUNS number of the manufacturer in the following data element.

## MG Manufacturer's Part Number

When used, a second 235/234 pair must be used citing either code MF or ZB.

- MN Model Number
- N1 National Drug Code in 4-4-2 Format
- N2 National Drug Code in 5-3-2 Format
- N3 National Drug Code in 5-4-1 Format
- N4 National Drug Code in 5-4-2- Format
- ND National Drug Code (NDC)

#### PA Pattern Number

## PD Part Number Description

Use to indicate the noun nomenclature of the item.

### PI Purchaser's Item Code

Use to indicate a GSA Special Item Number.

#### PU Part Reference Number

Use to indicate a part number assigned by an industry (not related to a specific manufacturer). Do not use for National Drug Codes.

### RC Returnable Container No.

Use to indicate a National Stock Number (NSN), manufacturer's part number, or other identifying number (except a serial number) of a returnable container. The serial number of a returnable container will be carried in the 2/N9/320 segment with code RS in N901.

#### SN Serial Number

Use to indicate the serial number of the item. For example, the serial number of an aircraft engine that is to be repaired.

#### SV Service Rendered

Use to indicate (in text) the service being solicited.

## SW Stock Number

Use to indicate a local stock number.

# SZ Vendor Alphanumeric Size Code (NRMA)

Use to indicate the size of an item being ordered.

- *UA U.P.C./EAN Case Code* (2-5-5)
- UI U.P.C. Consumer Package Code (1-5-5)
- UK U.P.C./EAN Shipping Container Code (1-2-5-5-1)
- UP U.P.C. Consumer Package Code (1-5-5-1)
- UX Universal Product Number.
- VP Vendor's (Seller's) Part Number

Use to indicate a part number assigned by a contractor other than a manufacturer.

## ZB Commercial and Government Entity (CAGE) Code

Use to indicate a manufacturer who can be identified by a CAGE code.

### ZZ Mutually Defined

Use to indicate a miscellaneous charge, e.g., transportation, insurance, warranty, taxes, etc. Cite "Misc. Charge" in the following 234 data element and identify the purpose of the charge using an appropriate code in SAC02 of the 2/SAC/130 segment. Miscellaneous charges, other than transportation charges, may be grouped in a single

|       |     | Transportation charges MUST be a separate CLIN/SUB                                  | CLI    | V.      |

Segment: LIN Item Identification

**Position:** 015

**Loop:** PO1 Mandatory

Level: Detail
Usage: Optional
Max Use: >1

**Purpose:** To specify basic item identification data

**Syntax Notes:** 1 If either LIN04 or LIN05 is present, then the other is required.

- 2 If either LIN06 or LIN07 is present, then the other is required.
- 3 If either LIN08 or LIN09 is present, then the other is required.
- 4 If either LIN10 or LIN11 is present, then the other is required.
- 5 If either LIN12 or LIN13 is present, then the other is required.
- 6 If either LIN14 or LIN15 is present, then the other is required.
- If either LIN16 or LIN17 is present, then the other is required.
- 8 If either LIN18 or LIN19 is present, then the other is required.
- 9 If either LIN20 or LIN21 is present, then the other is required.
- 10 If either LIN22 or LIN23 is present, then the other is required.
- 11 If either LIN24 or LIN25 is present, then the other is required.
- 12 If either LIN26 or LIN27 is present, then the other is required.
- 13 If either LIN28 or LIN29 is present, then the other is required.
- **14** If either LIN30 or LIN31 is present, then the other is required.

**Semantic Notes:** Comments:

1 LIN01 is the line item identification

1 See the Data Dictionary for a complete list of IDs.

2 LIN02 through LIN31 provide for fifteen different product/service IDs for each item. For example: Case, Color, Drawing No., U.P.C. No., ISBN No., Model No., or SKU.

Notes: Use this segment to provide additional qualifier codes that further identify the

product or service.

|          |       |                | 1. LIN02 through LIN31 are used in pairs, e.g., LIN02 contains data related to the cool qualifier code and LIN03 contains data related to the cool. |       | ins a          |
|          |       |                | 2. Any code other than code A8, EF, KB, and ZZ can be listed codes are preferred.   | used, | , but the      |
|          |       |                | AK Refined Product Code BL. Brand/Label   |       |                |

Use to indicate the product's brand or model name, e.g., Trinitron is the Sony brand name for a TV or computer monitor

## CG Commodity Grouping

Use to indicate a commodity code, e.g., the 2 position Federal Supply Group code.

### CH Country of Origin Code

When used, cite the two position ISO 3166 country code in the following 234 data element.

### CL Color

## DG Discount Grouping

Use to indicate a discount group to which the line item pertains.

- EN European Article Number (EAN)(2-5-5-1)
- EQ Equipment Type
- F1 Catalog Number

Use to indicate a catalog number that identifies the product.

## F7 End-Item Description

Use to indicate the end item to which the ordered item applies.

## F8 Next Higher Used Assembly

Use to indicate the next higher assembly to which the ordered item applies.

#### FS National Stock Number

The NSN shall be transmitted without dashes.

## FT Federal Supply Classification

Use to indicate the 4 position Federal Supply Classification code or Product Service code

## HI HIBC (Health Industry Bar Code)

#### IN Buyer's Item Number

Use to indicate a locally assigned code for a product or service whenever stock number does not apply.

## KA Engineering Data List

Use to indicate the Engineering Data List that contains technical information related to the CLIN or SUBCLIN.

- KD Replacement National Stock Number
- KF Item Type Number
- KG Time Compliant Technical Order
- KI Cognizance Symbol
- K.J Material Control Code

- KK Special Material Identification Code
- KL Item Management Code
- KM Shelf-Life Code
- KN Shelf-Life Action Code
- LT Lot Number
- MF Manufacturer

When used, cite the DUNS number of the manufacturer in the following data element.

## MG Manufacturer's Part Number

When used, a second 235/234 pair must be used citing either code MF or ZB.

- MN Model Number
- N1 National Drug Code in 4-4-2 Format
- N2 National Drug Code in 5-3-2 Format
- N3 National Drug Code in 5-4-1 Format
- N4 National Drug Code in 5-4-2- Format
- ND National Drug Code (NDC)
- PA Pattern Number
- PD Part Number Description

Use to indicate the noun nomenclature of the item.

### PI Purchaser's Item Code

Use to indicate a GSA Special Item Number

#### PU Part Reference Number

Use to indicate a part number assigned by an industry (not related to a specific manufacturer). Do not use for National Drug Codes.

### RC Returnable Container No.

Use to indicate an NSN, manufacturer's part number, or other identifying number (except a serial number) of a returnable container. The serial number of a returnable container will be carried in the REF segment with code RS.

## SN Serial Number

Use to indicate the serial number of the item cited in PO101. For example, the serial number of an aircraft engine that is to be repaired.

### SV Service Rendered

Use to indicate (in text) the service being ordered.

#### SW Stock Number

Use to indicate a local stock number.

## SZ Vendor Alphanumeric Size Code (NRMA)

Use to indicate the size of an item being ordered.

Segment: CUR Currency

**Position:** 020

**Loop:** PO1 Mandatory

Level: Detail Usage: Optional

Max Use: 1

**Purpose:** To specify the currency (dollars, pounds, francs, etc.) used in a transaction

**Syntax Notes:** 

- 1 If CUR08 is present, then CUR07 is required.
- 2 If CUR09 is present, then CUR07 is required.
- 3 If CUR10 is present, then at least one of CUR11 or CUR12 is required.
- 4 If CUR11 is present, then CUR10 is required.
- 5 If CUR12 is present, then CUR10 is required.
- 6 If CUR13 is present, then at least one of CUR14 or CUR15 is required.
- 7 If CUR14 is present, then CUR13 is required.
- **8** If CUR15 is present, then CUR13 is required.
- **9** If CUR16 is present, then at least one of CUR17 or CUR18 is required.
- 10 If CUR17 is present, then CUR16 is required.
- 11 If CUR18 is present, then CUR16 is required.
- 12 If CUR19 is present, then at least one of CUR20 or CUR21 is required.
- 13 If CUR20 is present, then CUR19 is required.
- **14** If CUR21 is present, then CUR19 is required.

## **Semantic Notes:**

# **Comments:**

- 1 See Figures Appendix for examples detailing the use of the CUR segment.
- **Notes:**

Ref.

Data

- 1. Use to indicate that quotes for the line item may be submitted in a currency other than US dollars. Do not use when quotes are to be submitted only in US dollars. When used, one currency, other than US dollars must be cited in CUR02. CUR05 may be used to cite a second acceptable currency.
- 2. If quotes may be submitted in any currency, use the 2/N9/320 loop with code K7 in N901 and use the 2/MSG/330 segment to provide that instruction.

Segment: CN1 Contract Information

**Position:** 025

**Loop:** PO1 Mandatory

Level: Detail Usage: Optional

Max Use: 1

**Purpose:** To specify basic data about the contract or contract line item

Syntax Notes:

**Semantic Notes:** 1 CN102 is the contract amount.

- 2 CN103 is the allowance or charge percent.
- 3 CN104 is the contract code.
- 4 CN106 is an additional identifying number for the contract.

**Comments:** 

Notes: Use this segment to identify the type of pricing arrangement that is expected to be

applicable to a specific line item if it will differ from the pricing arrangement that is expected to be applicable to the award instrument. BQT08 specifies the pricing arrangement that is expected to be applicable to the entire award instrument. BQT08 and the 2/CN1/025 segment can both be included in the

transaction set if needed.

Segment: PO3 Additional Item Detail

**Position:** 030

**Loop:** PO1 Mandatory

Level: Detail
Usage: Optional
Max Use: 25

**Purpose:** To specify additional item-related data involving variations in normal price/quantity

tructure

**Syntax Notes:** 

1 If PO304 is present, then at least one of PO303 or PO305 is required.

**Semantic Notes:** 

Comments: 1 Some examples of price/quantity variations are: price in different units from the

PO1 segment, price changes by date, or price changes by quantity (break and

level).

2 PO307 defines the unit of measure for PO306.

Notes: Use this segment to provide additional information applicable to the CLIN,

SUBCLIN, or ELIN specified in PO101.

## **Data Element Summary**

|          | Ref.  | Data           | Mana        | A 44  |

CTP Pricing Information **Segment:** 

**Position:** 040

**Notes:** 

PO<sub>1</sub> Loop: Mandatory

Level: Detail Optional Usage: Max Use: >1

**Purpose:** To specify pricing information

**Syntax Notes:** If either CTP04 or CTP05 is present, then the other is required.

- 2 If CTP06 is present, then CTP07 is required. 3 If CTP09 is present, then CTP02 is required. 4 If CTP10 is present, then CTP02 is required.
- If CTP11 is present, then CTP03 is required.
- **Semantic Notes:** CTP07 is a multiplier factor to arrive at a final discounted price. A multiplier of .90 would be the factor if a 10% discount is given.
  - 2 CTP08 is the rebate amount.
  - See Figures Appendix for an example detailing the use of CTP03 and CTP04. **Comments:**

See Figures Appendix for an example detailing the use of CTP03, CTP04 and CTP07.

Use this segment to signal to prospective offerors that a variety of prices are being solicited, e.g., step-ladder prices (prices based on a range of solicited quantities), zone prices (prices based on deliveries to various geographic locations), or labor rates for categories of labor an offeror may propose for a time and materials or labor hour award instrument. It is also used to request the offeror to specify quantities at which he offers a price break, or to indicate that his catalog price along with his quoted price is required in his proposal.

Example of how prices are solicited for step ladder quantities for quantities 1-10, 11-20, 21-30, and 31-50:

CTP\*\*PBQ\*\*1\*EA N/L CTP\*\*ICL\*\*10\*EA N/L CTP\*\*ICL\*\*20\*EA N/L CTP\*\*ICL\*\*30\*EA N/L CTP\*\*MAX\*\*50\*EA N/L

|          |       |                | Use to identify the       | type of prices an offeror is required to | subi | mit in his     |
|          |       |                | quote.                    |  |      |                |
|          |       |                | CAT                       | Catalog Price                            |      |                |

Use to indicate the offeror, in addition to his

quoted price, is to provide his catalog price for the item specified in PO101.

ICL Unit Price Through Quantity

- 1. When prices are being solicited for quantity ranges applicable to step ladder pricing, use to indicate the end of a quantity range.
- 2. Use in conjunction with codes PBQ and MAX for step ladder pricing. Step ladder pricing is defined as the price specified for the quantity range containing the quantity purchased, applying to all the items purchased. Use of codes ICL, MAX and PBQ is in contrast to use of code PAQ which identifies quantities at which different prices are applied.

LAR Labor Rate

Use to indicate the offeror is to provide hourly labor rates for the labor categories quoted. These labor rates will be provided in the PD/PDD loop of the 843 transaction set.

LPP Lease to Purchase Price

MAX Maximum Order Quantity Price

- 1. When prices are being solicited for quantity ranges applicable to step ladder pricing, use to indicate the quantity above which the price will not change.
- 2. Use in conjunction with codes ICL and PBQ for step ladder pricing. Step ladder pricing is defined as the price specified for the quantity range containing the quantity purchased, applying to all the items purchased. Use of codes ICL, MAX and PBQ is in contrast to use of code PAQ which identifies quantities at which different prices are applied.

PAQ Price Break Quantity(s)

Use to indicate that the offeror is to identify a quantity where an incremental price break occurs. For example, if price breaks occur at quantities 11, 21, 31, etc., then for a purchase quantity of 25, the first 10 units are at the first price, the next 10 units are at the second price and the last 5 units are at the third price. This is in contrast to step ladder prices where all 25 units are one price.

PBQ Unit Price Beginning Quantity

- 1. When prices are being solicited for quantity ranges applicable to step ladder pricing, use to indicate the beginning of a quantity range.
- 2. Use in conjunction with codes ICL and MAX for step ladder pricing. Step ladder pricing is defined as the price specified for the quantity range containing the quantity purchased, applying to all the items purchased. Use of codes ICL, MAX and PBQ is in contrast to use of code PAQ which identifies quantities at which different prices are applied.

RPP Replacement Price

Use to indicate the acquisition cost to replace the item identified in the PO1 segment being repaired or overhauled.

ZNP Zone Price

Use in conjunction with CTP10 to indicate that prices are being solicited for delivery to the zone cited in CTP10. This is the total price of the item and is based on standard commercial packaging and preservation.

Not Used CTP03 212 Unit Price

X R 1/17

Price per unit of product, service, commodity, etc.

CTP04 380 Quantity

X R 1/15

Numeric value of quantity

When CTP02 is code LAR and CTP05 is code HR, cite "1".

CTP05 C001 Composite Unit of Measure

X

To identify a composite unit of measure (See Figures Appendix for examples of use)

M C00101 355 Unit or Basis for Measurement Code

M ID 2/2

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

- 1. Use any code other than code ZZ.
- 2. A conversion table may be required to convert agency codes to ASC X12 codes.

#### HR Hours

When CTP02 is code LAR, use to indicate the offeror is to provide the estimated number of hours applicable to the effort being solicited. The estimated labor hours will be provided in the PD/PDD loop of the 843 transaction set.

Refer to 004010 Data Element Dictionary for acceptable code values.

Identifies rate restrictions or provisions

Use in conjunction with CTP02 code ZNP, to identify the delivery zone

for which prices are being solicited.

Not Used CTP11 289 **Multiple Price Quantity**  O N0 1/2

Quantity of units for a given price, e.g., 3 for \$10.00

Segment: MEA Measurements

**Position:** 049

**Loop:** PO1 Mandatory

Level: Detail
Usage: Optional
Max Use: 40

**Purpose:** To specify physical measurements or counts, including dimensions, tolerances,

variances, and weights (See Figures Appendix for example of use of C001)

**Syntax Notes:** 1 At least one of MEA03 MEA05 MEA06 or MEA08 is required.

2 If MEA05 is present, then MEA04 is required.3 If MEA06 is present, then MEA04 is required.

4 If MEA07 is present, then at least one of MEA03 MEA05 or MEA06 is required.

5 Only one of MEA08 or MEA03 may be present.

**Semantic Notes:** 

**Comments:** 

1 MEA04 defines the unit of measure for MEA03, MEA05, and MEA06.

1 When citing dimensional tolerances, any measurement requiring a sign (+ or -), or any measurement where a positive (+) value cannot be assumed, use MEA05 as the negative (-) value and MEA06 as the positive (+) value.

**Notes:** 

- 1. Use this segment to provide information that applies to a specific line item. Use the 1/MEA/200 segment to provide information that applies to all of the line items.
- 2. This segment can be used to specify various measurements of the product; to specify the maximum size standards for the Standard Industrial Classification (SIC) Code or the North American Industry Classification System Code; to specify the length of a required warranty; to specify the variations in quantity permitted, and for line items in a basic type award instrument, e.g., a requirements, a BPA, an indefinite quantity type award instrument, etc., the minimum/maximum quantity per order, the maximum that may be ordered during a specified time period, the minimum and maximum obligations of the government and the contractor.

### **Data Element Summary**

| Ref.  | Data           |                               |                   |
|-------|----------------|-------------------------------|-------------------|
| Des.  | <b>Element</b> | <u>Name</u>                   | <u>Attributes</u> |
| MEA01 | 737            | Measurement Reference ID Code | O ID 2/2          |

Code identifying the broad category to which a measurement applies

Use any code.

## BT Batch Limits

When BQT06 is code KB, KD, KE, KI, KQ, or KR, use to indicate the minimum and maximum limits of the Government's obligation to order either in terms of dollars or quantity under a basic type award instrument. When BQT06 is code KT or RL, use to indicate the minimum and maximum limits of the Government's obligation to order either in terms of dollars or quantity under the specific Task Order or Delivery Order. Use MEA04-C00101 to identify the unit of measure

(dollars, each, etc.) and use MEA05/06 to specify the minimum and maximum.

#### CS Core Size

Use in conjunction with the 2/REF/100 segment, REF01 code PG or code IJ, to indicate the maximum size standard, either as the number of employees or the annual revenue, for the cited NAICS code or SIC code. Identify the maximum size` in MEA03 and the basis (revenue or employees) in MEA04-C00101.

#### LT Lot Limits

Use to indicate the minimum and maximum limits of the contractor's obligation either in terms of dollars or quantity to deliver under a basic type award instrument. Do not use for a purchase order or a delivery order. Use MEA04-C00101 to identify the unit of measure (dollars, each, etc.) and use MEA05/06 to specify the minimum and maximum.

#### OL Order Limits

Use to indicate the maximum the Government may order from a basic type procurement instrument in a specified time period. Do not use for a purchase order or a delivery order. Use MEA03 to identify the quantity, MEA04-C00101 to identify the unit of measure, and MEA04-C00104 to identify the time period.

#### PM Permitted

Use to indicate the minimum and maximum quantity or dollars permitted per order against a basic type award instrument. Use MEA04-C00101 to identify the unit of measure (dollars, each, etc.) and use MEA05/06 to specify the minimum and maximum.

## QV Quantity Variation

Use to indicate variations in quantity that are permitted. When the quantity variation is expressed as a discrete quantity, cite in MEA04-C00101, the same code cited in PO103 of the 1/PO1/010 loop, and specify the quantity under and/or over in MEA05/06. If the quantity variation is expressed as a percent, cite code P1 in MEA04-C00101.

#### WR Warranty

Use in conjunction with the 2/CSH/142 segment, CSH01 code WY and MEA03/04-C00101 to indicate a warranty period.

Refer to 004010 Data Element Dictionary for acceptable code values.

### MEA02 738 Measurement Qualifier

O ID 1/3

Code identifying a specific product or process characteristic to which a measurement applies

MX Maximum

1. When MEA01 is code CS, use to indicate the maximum size standard applicable to the SIC or

NAICS code specified in the 2/REF/100 segment.

2. When MEA01 is code OL, use to indicate the maximum amount that can be ordered in a specified period of time.

RY Ratio

When CN101 is code CA, CH, CY, FB, FC, FF, or FG, use to indicate the Government and contractor share ratio. Identify the Government share in MEA05 and the contractor share in MEA06.

TT Time

Use, in conjunction with MEA01 code WR, to indicate the length of a warranty period. Specify the length of the time period in MEA03 and the time period in MEA04-C00101.

ZZZ Mutually Defined

Use this code to indicate minimum guarantee award quantity percentage, minimum guarantee award quantity/amount, maximum ceiling award quantity/amount, and minimum guarantee award amount percentage. When this code is used to specify minimum guarantee award quantity or maximum ceiling award quantity, cite code EA in MEA04-C00101, the minimum quantity in MEA05 or the maximum quantity in MEA06. To specify minimum guarantee award amount or maximum ceiling award amount, cite code DO in MEA04 -C00101, the minimum amount in MEA05 or the maximum amount in MEA06. To specify minimum guarantee award amount percentage, cite code DO in MEA04-C00101, code P1 in MEA04-C00104, and the minimum amount percentage in MEA05. To specify minimum guarantee award quantity percentage, cite code EA in MEA04-C00101, code P1 in MEA04-C00104, and the minimum quantity percentage in MEA05.

MEA03 739 Measurement Value

X R 1/20

The value of the measurement

MEA04 C001 Composite Unit of Measure

X

To identify a composite unit of measure (See Figures Appendix for examples of use)

1. This composite unit of measure can be used to indicate the maximum that may be ordered during a specified period of time under a basic type award instrument and to specify the minimum guaranteed award amount/quantity percentage.

- 2. For example: If the maximum that can be ordered per quarter is 10,000 each, then MEA01 would cite code OL, MEA02 would cite MX, MEA03 would cite 10,000, MEA04-C00101 would cite EA, and MEA04-C00104 would cite O1.
- 3. To specify the minimum guarantee award amount/quantity percentage, cite code ZZZ in MEA02, either code DO or EA in MEA04-C00101 and code P1 in MEA04-C00104.

### M C00101 355

### **Unit or Basis for Measurement Code**

M ID 2/2

Code specifying the units in which a value is being expressed, or manner in which a measurement has been taken

1. Use any code other than code ZZ. Use the listed codes in accordance with the code notes.

#### IE Person

Use in conjunction with MEA01 code CS, to indicate the SIC or NAICS size standard in terms of number of employees.

## **R5** Thousands of Dollars

Use in conjunction with MEA01 code CS, to indicate the SIC or NAICS size standard in terms of dollar amount of sales.

### **R6** Millions of Dollars

Use in conjunction with MEA01 code CS, to indicate the SIC or NAICS size standard in terms of dollar amount of sales.

- 2. When MEA01 is code QV, the code cited in MEA04-C00101 MUST be code P1 or the same code cited in PO103 of the 2/PO1/010 segment.
- 3. Use codes DA, LL, MO, and YR in conjunction with MEA01 code WR.
- 4. An application program conversion table may be required to convert agency codes to ASC X12 codes.

Refer to 004010 Data Element Dictionary for acceptable code values.

Not Used C00102 1018

18 Exponent

O R 1/15

Power to which a unit is raised

O ID 2/2

Code indicating the product surface, layer or position that is being described

Not Used MEA10 1373 Me

**Measurement Method or Device** 

O ID 2/4

The method or device used to record the measurement

PID Product/Item Description **Segment:** 050 **Position:** PID Loop: **Optional** Level: Detail Optional Usage: Max Use: **Purpose:** To describe a product or process in coded or free-form format **Syntax Notes:** If PID04 is present, then PID03 is required. 2 At least one of PID04 or PID05 is required. 3 If PID07 is present, then PID03 is required. 4 If PID08 is present, then PID04 is required. If PID09 is present, then PID05 is required. **Semantic Notes:** Use PID03 to indicate the organization that publishes the code list being referred 2 PID04 should be used for industry-specific product description codes. PID08 describes the physical characteristics of the product identified in PID04. A "Y" indicates that the specified attribute applies to this item; an "N" indicates it does not apply. Any other value is indeterminate. 4 PID09 is used to identify the language being used in PID05. **Comments:** If PID01 equals "F", then PID05 is used. If PID01 equals "S", then PID04 is used. If PID01 equals "X", then both PID04 and PID05 are used. Use PID06 when necessary to refer to the product surface or layer being described in the segment. PID07 specifies the individual code list of the agency specified in PID03. **Notes:** Use this segment to provide information applicable to a specific line item. Use the 1/PID/190 segment when the information applies to all of the line items. **Data Element Summary** Ref. Data Des. Element Name **Attributes** M PID01 M ID 1/1 349 **Item Description Type** Code indicating the format of a description F Free-form S Structured (From Industry Code List) X Semi-structured (Code and Text) PID02 **750** Product/Process Characteristic Code O ID 2/3Code identifying the general class of a product or process characteristic Use any code other than codes 32 or OC. PID03 559 **Agency Qualifier Code** X ID 2/2 Code identifying the agency assigning the code values Use in conjunction with PID04. EP United States Environmental Protection Agency (EPA)

Federal Government

When this code is used, the code contained in

FG

PID04 comes from the Federal EDI Coding Manual, Federal Procurement Code List One (FP1). This code list can be found at http://fedebiz.disa.mil, under Related Documents, Federal EDI Coding Manual.

Segment: PWK Paperwork

**Position:** 070

**Loop:** PO1 Mandatory

Level: Detail
Usage: Optional
Max Use: 25

**Purpose:** To identify the type or transmission or both of paperwork or supporting information

**Syntax Notes:** 1 If either PWK05 or PWK06 is present, then the other is required.

**Semantic Notes:** 

**Comments:** 1 PWK05 and PWK06 may be used to identify the addressee by a code number.

**2** PWK07 may be used to indicate special information to be shown on the specified report.

3 PWK08 may be used to indicate action pertaining to a report.

Notes: 1. Use this segment to provide paperwork information that applies to a specific

line item, Use the 1/PWK/210 segment to specify paperwork that is applicable to

all of the line items.

2. Use this segment to identify paperwork required to be provided by the offeror in response to the solicitation, or paperwork that will be required under the resultant procurement instrument, or paperwork being provided as part of the solicitation and, if necessary, how that paperwork will be transmitted.

Max Use: 200

**Purpose:** To describe marking, packaging, loading, and unloading requirements

**Syntax Notes:** 1 At least one of PKG04 PKG05 or PKG06 is required.

- 2 If PKG04 is present, then PKG03 is required.
- 3 If PKG05 is present, then PKG01 is required.

**Semantic Notes:** 

**Comments:** 

PKG04 should be used for industry-specific packaging description codes.
 Use the MEA (Measurements) Segment to define dimensions, tolerances,

weights, counts, physical restrictions, etc.

2 If PKG01 equals "F", then PKG05 is used. If PKG01 equals "S", then PKG04 is used. If PKG01 equals "X", then both PKG04 and PKG05 are used.

- 3 Use PKG03 to indicate the organization that publishes the code list being referred to.
- 4 Special marking or tagging data can be given in PKG05 (description).

**Notes:** 

- 1. Use this segment when packaging requirements apply to specific line items. Use the 1/PKG/220 segment when the packaging requirements apply to all of the line items.
- 2. Packaging information such as the number of items in a unit container; the number of unit containers in an intermediate container; and the gross weight, cube and dimensions of a unit or intermediate container is carried in the 2/PO4/090 segment.
- 2. The use of MILSTD 2073-1C codes to identify packaging requirements for items in this award instrument are primarily for items that are expected to enter the military distribution system. Commercial packaging is expected to be used to the maximum extent possible for all other items.
- 3. Commercial packaging requirements are specified by citing PKG02 code PK, PKG03 code DF, and PKG04 code U.

## **Data Element Summary**

| Ref.  | Data           |                     |   |     |                |
|-------|----------------|---------------------|---|-----|----------------|
| Des.  | <b>Element</b> | <u>Name</u>         |   | Att | <u>ributes</u> |
| PKG01 | 349            | Item Description    | Гуре                                    | X   | <b>ID 1/1</b>  |
|       |                | Code indicating the | e format of a description               |     |                |
|       |                | F                   | Free-form                               |     |                |
|       |                | S                   | Structured (From Industry Code List)    |     |                |
|       |                | X                   | Semi-structured (Code and Text)         |     |                |
| PKG02 | 753            | Packaging Charac    | cteristic Code                          | 0   | ID 1/5         |
|       |                | Code specifying the | e marking, packaging, loading and relat | ed  |                |

Code specifying the marking, packaging, loading and related characteristics being described

# Use the listed codes to identify the applicable packaging requirements.

CD Cleaning or Drying Procedure
CT Cushioning Thickness
CUD Cushioning and Dunnage
IC Intermediate Container
OPI Optional Procedure Indicator

PK Packing

To specify commercial packaging, cite code DF in

PKG03 and code U in PKG04.

PM Preservation Method
PML Preservation Material
SMK Special Marking
UC Unit Container
UCL Unit Container Level
WM Wrapping Material

# PKG03 559 Agency Qualifier Code

X ID 2/2

Code identifying the agency assigning the code values

# Use in conjunction with PKG04.

DF Department of Defense (DoD)

GS General Services Administration (GSA)

ZZ Mutually Defined

Use in conjunction with PKG05 to indicate a federal activity other than DoD or GSA.

# PKG04 754 Packaging Description Code

X AN 1/7

A code from an industry code list which provides specific data about the marking, packaging or loading and unloading of a product

- 1. When PKG03 is code DF, cite a code from X12 Code Source List 197 (MIL-STD 2073-1C).
- 2. Whenever a code is used in PKG04 requires an explanation or additional information, provide it in PKG05.

# PKG05 352 Description

X AN 1/80

A free-form description to clarify the related data elements and their content

- 1. Use to provide Supplemental Instructions or Special Packaging Instructions. If the information to be provided exceeds the maximum length of this data element, provide the information in the 2/N9/320 loop, using code K7 in N901.
- 2. When PKG03 is code ZZ, use to identify the federal activity who is assigning the packaging code values, and to identify the code source where the codes can be found.

# 3. Use of free form text is discouraged if the information can be provided by some other means within the transaction set.

# PKG06 400 Unit Load Option Code X ID 2/2

Code identifying loading or unloading a shipment

01 Palletized10 Shrink-wrap

Segment: PO4 Item Physical Details

**Position:** 090

**Loop:** PO1 Mandatory

Level: Detail
Usage: Optional
Max Use: >1

**Purpose:** To specify the physical qualities, packaging, weights, and dimensions relating to the

item

Syntax Notes:

- 1 If either PO402 or PO403 is present, then the other is required.
- 2 If PO405 is present, then PO406 is required.
- 3 If either PO406 or PO407 is present, then the other is required.
- 4 If either PO408 or PO409 is present, then the other is required.
- 5 If PO410 is present, then PO413 is required.
- **6** If PO411 is present, then PO413 is required.
- 7 If PO412 is present, then PO413 is required.
- 8 If PO413 is present, then at least one of PO410 PO411 or PO412 is required.
- **9** If PO417 is present, then PO416 is required.
- 10 If PO418 is present, then PO404 is required.

#### **Semantic Notes:**

- PO415 is used to indicate the relative layer of this package or range of packages within the layers of packaging. Relative Position 1 (value R1) is the innermost package.
- 2 PO416 is the package identifier or the beginning package identifier in a range of identifiers.
- **3** PO417 is the ending package identifier in a range of identifiers.
- 4 PO418 is the number of packages in this layer.

#### **Comments:**

- PO403 The "Unit or Basis for Measure Code" in this segment position is for purposes of defining the pack (PO401) /size (PO402) measure which indicates the quantity in the inner pack unit. For example: If the carton contains 24 12 -Ounce packages, it would be described as follows: Data element 356 = "24"; Data element 357 = "12"; Data element 355 = "OZ".
- 2 PO413 defines the unit of measure for PO410, PO411, and PO412.

## Notes:

- 1. Use this segment to specify the weight, cube, or dimensions of the unit or intermediate pack, or the unit pack quantity or intermediate container quantity. To specify the unit pack quantity, use PO401 and PO404 (code UNT). If there are 50 pairs in a unit container, PO401 would cite 50 and PO404 would cite code UNT.
- 2. If it is necessary to specify not only the quantity of items in a unit container, but also the size and unit of measure of those items, use PO401, PO402, PO403, and PO404. In this instance, if there are 24, 12 ounce bottles in the unit container, PO401 would cite 24, PO402 would cite 12, PO403 would cite code OZ and PO404 would cite code UNT. In either of these examples, the number of unit containers in an intermediate container would be carried in PO414. If only the quantity per intermediate container is required, use code INT in PO404 and cite the quantity in PO414.

# **Data Element Summary**

| Ref. <u>Des.</u> |     | <u>Name</u><br>Pack  |        | ributes    |  |  |  |  |
|------------------|-----|--|--------|------------|--|--|--|--|
| PO401            | 356 | Pack O N0 1/6 The number of inner containers, or number of eaches if there are no inner containers, per outer container  |        |            |  |  |  |  |
|                  |     | 1. Use to identify the unit pack quantity. Cite the actual quantity one of the following to identify a special condition applicable to the pack quantity.          |        |            |  |  |  |  |
|                  |     | 2. Cite the number 777777 (as the equivalent of MIL-STD 2073-1C code BLK) to indicate a bulk quantity.   |        |            |  |  |  |  |
|                  |     | 3. Cite the number 888888 (as the equivalent of MIL-ST code YYY) to indicate ''Packager's option as long as all crequirements are met''.                           |        |            |  |  |  |  |
|                  |     | 4. Cite the number 999999 (as the equivalent of MIL-ST code ZZZ) to indicate "Special requirements - refer to su data, special instructions or drawings provided". |        |            |  |  |  |  |

9G Department of Defense Form 250 Requirement Code Use to indicate the inspection and acceptance requirements for a data item specified on the Contract Data Requirements List. CT Contract Number Use to indicate an existing contractual instrument applicable to this solicitation. DG **Drawing Number** EV Receiver Identification Number Use to identify the requiring office, i.e., the technical office responsible for ensuring adequacy of the data required on a Contract Data Requirements List. Use an abbreviation of the activity, e.g., NICP, Navy Inventory Control Point. HF **Engineering Data List** IJ Standard Industry Classification (SIC) Code Use to indicate the Standard Industry Classification code applicable to a line item. ILInternal Order Number Use to indicate the MILSTRIP/DLMS/FEDSTRIP document number. IQ End Item Use to specify an end item to which the solicited item pertains. ΙX Item Number Use to indicate a Federal Supply Schedule (FSS) special item number. K0 Approval Code Use to indicate the approval code on a Contract Data Requirements List. KL Contract Reference For a Contract Data Requirements List data item, use to indicate the reference in the contract that generates the requirement for the data item (e.g., Statement of Work paragraph). KV Distribution Statement Code Use to indicate the code on a Contract Data Requirements List that specifies the distribution statement a contractor is to mark on a data item. LT Lot Number LX **Qualified Products List** When IT801 is code QP, QM, or QB, use to

indicate the Qualified Product List, Qualified Manufacturer List or Qualified Bidders List number. MU Military Specification (MILSPEC) Number NI Military Standard (MIL-STD) Number NJ **Technical Document Number** Technical Order Number NL P4 Project Code Use to indicate the project number applicable to the line item. **Product Group** PG 1. Use to indicate a North American Industrial Classification System (NAICS) code. When this code is used, the code cited in REF02 can be found at http://www.census.gov/epcd/www/naics.html. 2. The NAICS code MUST be 6 digits. If the NAICS code is less than 6 digits, add a trailing zero. PH **Priority Rating** Use to indicate the MILSTRIP/DLMS/FEDSTRIP priority rating. PID Program Identification Number PL Price List Number Use to indicate a Defense Supply Center Philadelphia Distribution and Pricing Agreement Number applicable to the line item. QC **Product Specification Document Number** RQ Purchase Requisition Number Use to indicate the Purchase Request (PR) number or Purchase Request Order Number (PRON). When citing a Purchase Request number, concatenate the line item number with the Purchase Request number if it is necessary to transmit both numbers. Returnable Container Serial Number RS S3 Specification Number Use to indicate a specification number other than a Military Specification (MIL-SPEC). When used, cite the specification number in REF02 and identify the issuing activity in REF03. T4 Signal Code TG Transportation Control Number (TCN) TN Transaction Reference Number

- 1. Use to indicate the unique reference number of a related transaction set (e.g. an 841 transaction set carrying a related technical specification or drawing). Each transaction set has a unique number. In the case of the 841 transaction set, that number is carried in SPI02.
- 2. When used, cite the related transaction set's unique number in REF02 and cite the X12 transaction set designator of the related transaction set, e.g., 841, in REF03.

TP **Test Specification Number** 

VQ Related Contract Line Item Number

Use to indicate a line item in the solicitation to

which this line item pertains.

VW Standard

> Use to indicate a standard other than a Military Standard (MIL-STD). When used, cite the standard number in REF02, e.g., ASTM D3951, and, if necessary, further identify the standard in REF03.

W1Disposal Turn-In Document Number

W2 Weapon System Number

Use to indicate the Weapon System code.

W6 Federal Supply Schedule Number

W8 Suffix

> Use to indicate the MILSTRIP requisition suffix number. This code can be used if there is ONLY one occurrence of the REF segment with code IL in REF01.

WF Locally Assigned Control Number WL Federal Supply Classification Code XE Transportation Priority Number

XY Other Unlisted Type of Reference Number

> Use to indicate another type of reference number. When used, identify the nature of the number in REF03.

#### REF02 127 Reference Identification

X AN 1/30

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

If the document has a revision or an extension, the document number and the revision or extension number should be concatenated and cited in this data element.

REF03 352 Description X AN 1/80

A free-form description to clarify the related data elements and their content

- 1. Use to carry additional information related to a reference number cited in REF02.
- 2. Use of free form text is discouraged if the information can be provided by some other means within the transaction set.

|          |        |      | provided by some ones means without the transaction so   |         |           |

Segment: PER Administrative Communications Contact

**Position:** 110

**Loop:** PO1 Mandatory

Level: Detail
Usage: Optional
Max Use: 3

**Purpose:** To identify a person or office to whom administrative communications should be

directed

**Syntax Notes:** 1 If either PER03 or PER04 is present, then the other is required.

2 If either PER05 or PER06 is present, then the other is required.
3 If either PER07 or PER08 is present, then the other is required.

**Semantic Notes:** 

M

**Comments:** 

Notes: Use this segment to provide names and communication numbers for points of

contact applicable to a line item and which are not associated with an address.

# **Data Element Summary**

| Ref.  | Data           |                       |                   |
|-------|----------------|-----------------------|-------------------|
| Des.  | <b>Element</b> | <u>Name</u>           | <u>Attributes</u> |
| PER01 | 366            | Contact Function Code | M ID 2/2          |

Code identifying the major duty or responsibility of the person or group

named

AU Report Authorizer

Use in conjunction with the 2/P01/010 segment, PO106 code EF, to indicate the approver of a

Contract Data Requirements List.

BD Buyer Name or Department

Use to indicate the Grants Management Specialist.

PI Preparer

Use in conjunction with the 2/P01/010 segment, PO106 code EF, to indicate the preparer of a

Contract Data Requirements List.

PER02 93 Name O AN 1/60

Free-form name

Use to identify the name of a point of contact. Last name, followed by first name, is preferred. If the whole name is longer than 35 characters, the use of initials for the first name is recommended. PER09 may be

used to cite the party's title or office symbol.

PER03 365 Communication Number Qualifier X ID 2/2

Code identifying the type of communication number

AU Defense Switched Network

EM Electronic Mail

FX Facsimile

IT International Telephone

# Include the country code.

TE Telephone

Use to indicate the commercial telephone number of the individual cited in PER02. Include the area code.

#### PER04 364 Communication Number

X AN 1/80

Complete communications number including country or area code when applicable

All numbers, other than those associated with code EM, shall be transmitted as a continuous number with no extraneous characters. If an extension applies to the telephone number, concatenate the letter X plus the extension at the end of the number, e.g., 17035551212X123.

# PER05 365 Communication Number Qualifier

X ID 2/2

Code identifying the type of communication number

Use to identify a second communications number for the party cited in PER02. For example, if PER03/04 cites a telephone number, PER05/06 can be used to cite a FAX number.

AU Defense Switched Network

EM Electronic Mail

FX Facsimile

IT International Telephone

Include the country code.

TE Telephone

Use to indicate the commercial telephone number of the individual cited in PER02. Include the area

code.

#### PER06 364 Communication Number

X AN 1/80

Complete communications number including country or area code when applicable

All numbers, other than those associated with code EM, shall be transmitted as a continuous number with no extraneous characters. If an extension applies to the telephone number, concatenate the letter X plus the extension at the end of the number, e.g., 17035551212X123.

#### PER07 365 Communication Number Qualifier

X ID 2/2

Code identifying the type of communication number

Use to identify a third communications number for the party cited in PER02.

AU Defense Switched Network

EM Electronic Mail

FX Facsimile

IT International Telephone

Include the country code.

# TE Telephone

Use to indicate the commercial telephone number of the individual cited in PER02. Include the area code.

## PER08 364 Communication Number

X AN 1/80

Complete communications number including country or area code when applicable

All numbers, other than those associated with code EM, shall be transmitted as a continuous number with no extraneous characters. If an extension applies to the telephone number, concatenate the letter X plus the extension at the end of the number, e.g., 17035551212X123.

# PER09 443 Contact Inquiry Reference

O AN 1/20

Additional reference number or description to clarify a contact number Use, if necessary, to provide the office symbol or title of the party cited in PER02.

Segment: SAC Service, Promotion, Allowance, or Charge Information

**Position:** 130

**Loop:** PO1 Mandatory

Level: Detail
Usage: Optional

Max Use: 25

**Purpose:** 

To request or identify a service, promotion, allowance, or charge; to specify the

amount or percentage for the service, promotion, allowance, or charge

**Syntax Notes:** 1 At least one of SAC02 or SAC03 is required.

- 2 If either SAC03 or SAC04 is present, then the other is required.
- **3** If either SAC06 or SAC07 is present, then the other is required.
- 4 If either SAC09 or SAC10 is present, then the other is required.
- 5 If SAC11 is present, then SAC10 is required.
- 6 If SAC13 is present, then at least one of SAC02 or SAC04 is required.
- 7 If SAC14 is present, then SAC13 is required.
- 8 If SAC16 is present, then SAC15 is required.

#### **Semantic Notes:**

- I If SAC01 is "A" or "C", then at least one of SAC05, SAC07, or SAC08 is required.
- **2** SAC05 is the total amount for the service, promotion, allowance, or charge. If SAC05 is present with SAC07 or SAC08, then SAC05 takes precedence.
- 3 SAC08 is the allowance or charge rate per unit.
- 4 SAC10 and SAC11 is the quantity basis when the allowance or charge quantity is different from the purchase order or invoice quantity.
  SAC10 and SAC11 used together indicate a quantity range, which could be a dollar amount, that is applicable to service, promotion, allowance, or charge.
- 5 SAC13 is used in conjunction with SAC02 or SAC04 to provide a specific reference number as identified by the code used.
- **6** SAC14 is used in conjunction with SAC13 to identify an option when there is more than one option of the promotion.
- 7 SAC16 is used to identify the language being used in SAC15.

#### **Comments:**

- 1 SAC04 may be used to uniquely identify the service, promotion, allowance, or charge. In addition, it may be used in conjunction to further the code in SAC02.
- 2 In some business applications, it is necessary to advise the trading partner of the actual dollar amount that a particular allowance, charge, or promotion was based on to reduce ambiguity. This amount is commonly referred to as "Dollar Basis Amount". It is represented in the SAC segment in SAC10 using the qualifier "DO" Dollars in SAC09.

## Notes:

- 1. Use this segment to solicit services, discounts, or potential charges (e.g., taxes) and if applicable, quantities applicable to a specific line item. If the services, discounts, or potential charges apply to all of the line items, use the 1/SAC/120 segment.
- 2. Offerors will respond in the quote with amounts and, if applicable, quantities, that apply to the services, discounts, or charges identified in this segment.

## **Data Element Summary**

# Ref. Data

|              | Des.  | <b>Element</b> | <u>Name</u>                   | <u>Attributes</u> |
|--------------|-------|----------------|-------------------------------|-------------------|
| $\mathbf{M}$ | SAC01 | 248            | Allowance or Charge Indicator | M ID 1/1          |

Code which indicates an allowance or charge for the service specified

R Allowance Request

Use to comply with the mandatory nature of this data element when soliciting a service, discount, or potential non-CLIN charges in SAC02 for which the bidder is to provide an amount in the offer.

# SAC02 1300 Service, Promotion, Allowance, or Charge Code X ID 4/4

Code identifying the service, promotion, allowance, or charge

Any code may be used. The following is a list of preferred codes:

A310 Air Express Charge

A320 Air Transportation Charge

A480 Assembly

B180 Cleaning Charge

B870 Customs Charge

B940 Cutting Charge

C000 Defective Allowance

C240 Disconnect Charge

C260 Discount - Incentive

Use to indicate a discount when payment is made using the government credit card.

#### C300 Discount - Special

Use to indicate an incremental quantity discount. An incremental quantity discount applies only to the quantity units within its specified range. Successive incremental discounts are applied against a total order quantity. For example, if different discounts are given for quantities, 1 - 10, 11 - 20, 21 - 30, etc., use of this code implies that for a quantity of 25, the first discount applies to the first 10 units, the second discount applies to the next 10 units and the third discount applies to the last 5 units. This is contrast to the F910 step ladder discount that applies a single discount to the total line item quantity.

#### C310 Discount

Use to indicate a general discount not related to a quantity or purchase amount. Offerors should not include any general discount within the C300 or F910 discount considerations.

C330 Distribution Fee

C370 Diversion Charge

C580 Emergency Service

C590 Emergency Surcharge

C830 Expanded Service

Use to indicate the cost for service beyond the basic area.

C880 Expediting Premium

D170 Free Goods

Use to indicate a quantity provided at no cost if a specified quantity or monetary value is purchased, e.g., buy \$100.00 and get 1 free; or buy 10, get 1 free.

D290 Full Truckload Allowance

D340 Goods and Services Charge

D440 Groupage Discount

Use to indicate a discount applicable to a line item total purchase amount meeting or exceeding a specified threshold or range.

D500 Handling

D530 Hazardous Cargo Charge

D660 Hook-up Charge

D820 Inside Delivery

D870 Inspection

D890 Installation and Training

D900 Installation

E340 Less Than Truckload (LTL) Charge

Use to indicate a charge for less than a full carload or truckload.

E400 Loading (Labor Charges)

E930 One-Day Service

F150 Packaging Service

F460 Postage

F560 Premium Transportation

F830 Proof of Delivery

Use to indicate a charge for preparation of a DD Form 250.

## F910 Quantity Discount

Use to indicate a step ladder discount applicable to a quantity range. The discount specified for the quantity range containing the total line item quantity is the discount to be applied to the unit price. This is contrast to the C300 incremental discount that applies to that portion of the total line item quantity within each increment.

G030 Reconnect Charge

G350 Rents and Leases

G470 Restocking Charge

G530 Rework

G580 Royalties

G600 Same-Day Service

G610 Saturday Delivery

G660 Scrap Allowance

G740 Service Charge

Use to indicate a basic charge for a service call.

G760 Set-up

G870 Shrink Wrap Charge

H000 Special Allowance

H030 Special Credit

Use to indicate the portion of a lease amount that is credited toward the purchase price on a lease with option to purchase (LWOP).

H110 Special Packaging

H170 Special Tooling Charge

H430 Storage

H540 Supplemental Items

Use to indicate Contractor Acquired Parts (CAPS).

H550 Surcharge

H680 Tax - Governmental

Use to indicate that the offeror is required to identify the taxes applicable to the total line item amount that are not included in the line item unit price. The offeror is to specify the tax type in the 1/SAC/120 segment of the 843 transaction set by use of the appropriate code in SAC02. Codes H680 and H850 may not be used by the offeror for this purpose.

#### H850 Tax

Use to indicate that the offeror is required to identify total taxes applicable to the total line item amount that are included in the line item unit price. The offeror will use code H850 in SAC02 of the 843 transaction set to identify these total taxes.

H990 Testing Services Charge

1260 Transportation Direct Billing

1330 Two-Day Service

1380 Unloading (Labor Charges)

1590 Warranties

ZZZZ Mutually Defined

Use to indicate a training charge.

Refer to 004010 Data Element Dictionary for acceptable code values.

FOB F.O.B. Related Instructions **Segment:** 

**Position:** 180

> Loop: PO1 Mandatory

Level: Detail **Usage: Optional** Max Use: >1

**Purpose:** To specify transportation instructions relating to shipment

**Syntax Notes:** If FOB03 is present, then FOB02 is required.

> 2 If FOB04 is present, then FOB05 is required. 3 If FOB07 is present, then FOB06 is required.

4 If FOB08 is present, then FOB09 is required.

**Semantic Notes:** 1 FOB01 indicates which party will pay the carrier.

FOB02 is the code specifying transportation responsibility location.

3 FOB06 is the code specifying the title passage location.

FOB08 is the code specifying the point at which the risk of loss transfers. This may be different than the location specified in FOB02/FOB03 and

FOB06/FOB07.

#### **Comments:**

Notes:

1. Use this segment to specify an FOB point and acceptance location for a specific line item. Use the 1/FOB/080 segment to specify an FOB point and acceptance location that applies to all the line items.

2. This segment is not used when the offer is for construction or a service without deliverables.

|     | provisioned item. Specify the date range in DTM06.   |
|-----|--|
| 174 | Month Ending   |
|     | Use to indicate delivery is required within the specified month. In DTM02, identify the month and cite the last calendar day of the month. |
| 193 | Period Start   |
|     | 1. Use to indicate the start of a period of performance or lease.  |
|     | 2. When this code is used, there must be another iteration of this segment citing code 194 in DTM01.                                       |
| 194 | Period End   |
|     | 1. Use to indicate the end of a period of performance or lease.  |
|     | 2. When this code is used, there must be another iteration of this segment citing code 193 in DTM01.                                       |
| 275 | Approved   |
|     | Use to indicate the approval date of Contract Data<br>Requirements List.   |
| 368 | Submittal  |
|     | When REF01 is code TN, use to indicate the date  |
|     | of a related transaction set.  |
| 375 | Delivery Start   |
|     | 1. Use to indicate the start date/time for deliveries when the total quantity is to be delivered during a specified time period.           |
|     | 2. When this code is used, there must be another iteration of this segment citing code 376 in DTM01.                                       |
| 376 | Delivery End   |
|     | 1. Use to indicate the end date/time for deliveries when the total quantity is to be delivered during a specified time period.             |
|     | 2. When this code is used, there must be another iteration of this segment citing code 375 in DTM01.                                       |
| 565 | Date of Property Inspection  |
|     | Use in conjunction with the 2/N1/340 segment, N101 code EL, to indicate the date and possibly the time of a site or property inspection.   |
| 600 | As Of  |
|     | Use to indicate the "as of" date for submission of   |

Not Used

|       |     |  | data.   |
|-------|-----|--|---|
|       |     | 601  | First Submission  |
|       |     |  | Use to indicate the date of the first submission of a data item specified by a Contract Data Requirements List.   |
|       |     | 602  | Subsequent Submission   |
|       |     |  | Use to indicate the date(s) of a subsequent submission(s) of a data item specified by a Contract Data Requirements List.  |
|       |     | 641  | Option  |
|       |     |  | Use with DTM02 to indicate the last date for the exercise of an option or with DTM05/06 to indicate the period during which the option may be exercised.  |
|       |     | 937  | Department of Labor Wage Determination Date   |
|       |     |  | Use to indicate the date of a Department of Labor Wage Determination. If revisions or modifications are applicable to a Wage Determination, cite the date of the most recent revision or modification in DTM02. |
|       |     | 947  | Preparation   |
|       |     |  | Use to indicate the preparation date of a Contract Data Requirements List.  |
|       |     | 996  | Required Delivery   |
|       |     |  | Use to indicate delivery is required on or before the specified date.   |
| DTM02 | 373 | Date   | X DT 8/8  |

|       |     | 2. Use in conjunct site/property inspe               | ction with DTM01 code 565 to identify the time for a ection.  |
|       |     | 3. Specify the tim that location.                    | ne only in the HHMM format using the local time for   |
| DTM04 | 623 | <b>Time Code</b> Code identifying t                  | O ID 2/2 he time. In accordance with International Standards  |

Organization standard 8601, time can be specified by a + or - and an indication in hours in relation to Universal Time Coordinate (UTC) time; since + is a restricted character, + and - are substituted by P and M in the codes that follow

### DTM05 1250 Date Time Period Format Qualifier

X ID 2/3

Code indicating the date format, time format, or date and time format

Use to qualify the format for a range of dates or times.

RD8 Range of Dates Expressed in Format CCYYMMDD

-CCYYMMDD

RTM Range of Time Expressed in Format HHMM-HHMM

#### DTM06 1251 Date Time Period

X AN 1/35

Expression of a date, a time, or range of dates, times or dates and times

When used to identify a time range for deliveries on a specified date, use
code RTM in DTM06 to qualify a delivery time range, e.g., for March

30, 1994 between 1:00 PM and 4:00 PM local time. Use DTM01/02 to

convey the March 30, 1994 date.

 $TD5 \ \ Carrier\ Details\ (Routing\ Sequence/Transit\ Time)$ **Segment:** 

**Position:** 250

**Comments:** 

**Notes:** 

PO1 Loop: Mandatory

Level: Detail Usage: Optional Max Use: 12

**Purpose:** To specify the carrier and sequence of routing and provide transit time information

**Syntax Notes:** At least one of TD502 TD504 TD505 TD506 or TD512 is required.

> 2 If TD502 is present, then TD503 is required. 3 If TD507 is present, then TD508 is required. 4 If TD510 is present, then TD511 is required. If TD513 is present, then TD512 is required. If TD514 is present, then TD513 is required.

If TD515 is present, then TD512 is required.

**Semantic Notes:** TD515 is the country where the service is to be performed.

> When specifying a routing sequence to be used for the shipment movement in lieu of specifying each carrier within the movement, use TD502 to identify the party responsible for defining the routing sequence, and use TD503 to identify the actual routing sequence, specified by the party identified in TD502.

Use this segment to identify the transportation method that is applicable to a specific line item. If the transportation method applies to all of the line items, use the 1/TD5/240 segment.

Segment: TD4 Carrier Details (Special Handling, or Hazardous Materials, or Both)

**Position:** 270

**Loop:** PO1 Mandatory

Level: Detail Usage: Optional

Max Use: 5

**Purpose:** To specify transportation special handling requirements, or hazardous materials

information, or both

**Syntax Notes:** 1 At least one of TD401 TD402 or TD404 is required.

2 If TD402 is present, then TD403 is required.

**Semantic Notes:** 1 TD405 identifies if a Material Safety Data Sheet (MSDS) exists for this

product. A "Y" indicates an MSDS exists for this product; an "N" indicates an

MSDS does not exist for this product.

**Comments:** 

Notes: Use this segment to provide special handling or hazardous material information

that applies to a specific line item. If the information applies to all of the line

items, use the 1/TD4/260 segment.

Segment: MAN Marks and Numbers

**Position:** 280

**Loop:** PO1 Mandatory

Level: Detail
Usage: Optional
Max Use: 10

Purpose: To indicate identifying marks and numbers for shipping containersSyntax Notes: 1 If either MAN04 or MAN05 is present, then the other is required.

2 If MAN06 is present, then MAN05 is required.

#### **Semantic Notes:**

- 1 MAN01/MAN02 and MAN04/MAN05 may be used to identify two different marks and numbers assigned to the same physical container.
- When both MAN02 and MAN03 are used, MAN02 is the starting number of a sequential range and MAN03 is the ending number of that range.
- **3** When both MAN05 and MAN06 are used, MAN05 is the starting number of a sequential range, and MAN06 is the ending number of that range.

#### **Comments:**

- 1 When MAN01 contains code "UC" (U.P.C. Shipping Container Code) and MAN05/MAN06 contain a range of ID numbers, MAN03 is not used. The reason for this is that the U.P.C. Shipping Container code is the same on every carton that is represented in the range in MAN05/MAN06.
- 2 MAN03 and/or MAN06 are only used when sending a range(s) of ID numbers. When both MAN02/MAN03 and MAN05/MAN06 are used to send ranges of ID numbers, the integrity of the two ID numbers must be maintained.

#### **Notes:**

- 1. Use this segment to identify marks and numbers that apply to a specific line item. Use the 1/MAN/270 segment to identify marks and numbers that apply to all the line items.
- 2. Use to identify such data as MILSTRIP/DLMS/FEDSTRIP number, Transportation Control number, Project Priority number, and consignee related codes.

# MAN06 87 Marks and Numbers

O AN 1/48

Marks and numbers used to identify a shipment or parts of a shipment

M

Segment: RRA Required Response

**Position:** 290

**Loop:** PO1 Mandatory

Level: Detail
Usage: Optional
Max Use: 25

**Purpose:** To indicate information that is required to be included in the response

Syntax Notes:

**Semantic Notes:** 1 Use RRA02 only to specify applicable regulatory or contractual clause.

**Comments:** 

Notes: Use this segment to indicate to prospective offerors that information, applicable to a specific line item, must be provided with their proposal, e.g., a certification,

a representation or fill-in information. Use the 1/RRA/280 segment when the

information offerors are to provide applies to all of the line items.

### **Data Element Summary**

| Ref.  | Data           |                  |                   |
|-------|----------------|------------------|-------------------|
| Des.  | <b>Element</b> | <u>Name</u>      | <u>Attributes</u> |
| RRA01 | 701            | Information Type | M ID 2/2          |

Code specifying the information required in the response

14 As Indicated by the Cited Reference

Use to indicate the reference number that requires an offeror to provide a certification, representation or other information. This reference number will be a clause number or some unique reference number previously provided to offerors.

### **RRA02** 127 Reference Identification

O AN 1/30

Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier

Segment: MSG Message Text

**Position:** 292

**Loop:** PO1 Mandatory

Level: Detail

**Usage:** Optional (Not Recommended)

**Max Use:** 1000

**Purpose:** To provide a free-form format that allows the transmission of text information

**Syntax Notes:** 1 If MSG03 is present, then MSG02 is required.

**Semantic Notes:** 1 MSG03 is the number of lines to advance before printing.

**Comments:** 1 MSG02 is not related to the specific characteristics of a printer, but identifies

top of page, advance a line, etc.

2 If MSG02 is "AA - Advance the specified number of lines before print" then MSG03 is required.

wiscos is required

Notes: 1. Use to provide any plain text information not associated with a lead time, a

clause, or an address.

2. Use of free form text is discouraged if the information can be provided by

means of codes or data values within the transaction set.

Segment: SPI Specification Identifier

**Position:** 293

**Loop:** PO1 Mandatory

Level: Detail
Usage: Optional
Max Use: >1

**Purpose:** To provide a description of the included specification or technical data items

**Syntax Notes:** 1 If either SPI02 or SPI03 is present, then the other is required.

**Semantic Notes:** 

**Comments:** 

Notes: Use this segment to identify those elements of the solicitation that are classified

and to specify the level of classification.

Segment: SCH Line Item Schedule

**Position:** 296

Loop: SCH Optional

Level: Detail Usage: Optional

Max Use: 1

Purpose: To specify the data for scheduling a specific line-itemSyntax Notes: 1 If SCH03 is present, then SCH04 is required.

2 If SCH08 is present, then at least one of SCH09 or SCH10 is required.

3 If SCH09 is present, then SCH08 is required.4 If SCH10 is present, then SCH08 is required.

**Semantic Notes:** 1 SCH12 is the schedule identification.

**Comments:** 1 SCH05 specifies the interpretation to be used for SCH06 and SCH07.

Notes: Use this segment to identify a partial delivery when it can be specified as an actual date and there is only one ship-to addressee. If there is more than one

entity receiving a partial shipment, use the 2/SCH/405 segment.

Segment: LDT Lead Time

**Position:** 302

Loop: LDT Optional

Level: Detail
Usage: Optional

Max Use: 1

**Purpose:** To specify lead time for availability of products and services

**Syntax Notes:** 

**Semantic Notes:** 1 LDT04 is the effective date of lead time information.

**Comments:** 

1 LDT02 is the quantity of unit of time periods.

**Notes:** 

- 1. Use this loop when the delivery schedule is expressed as a set time period after the occurrence of some event, and varies by line item. If the delivery schedule applies to all of the line items, use the 1/LDT/160 segment.
- 2. If this segment is used, the 2/DTM/200 segment is not used to describe a delivery schedule.
- 3. The following are examples of how this LDT loop can be used to specify a delivery schedule:

Example 1: Deliver 50 each 180 days after date of order.

LDT\*AY\*180\*DA n/l QTY\*1J\*50\*EA n/l

Example 2: Deliver the total quantity of 500 each as follows: 50 per month commencing 180 days after date of order.

LDT\*AY\*180\*DA n/l QTY\*1J\*50\*MO n/l

Example 3: Deliver the total quantity of 20,500 each as follows: 2500 each per quarter commencing 90 days after date of order until half the order is completed, then 1000 each per month until the total order is complete.

LDT\*AY\*90\*DA n/l
QTY\*1J\*2500\*Q1 n/l
QTY\*1K\*4\*Q1 n/l
LDT\*AM\*1\*MO n/l
QTY\*1J\*1000\*MO n/l
QTY\*1K\*10\*MO n/l
LDT\*AK\*1\*MO n/l
OTY\*1J\*500\*EA n/l

Segment: QTY Quantity

**Position:** 303

Loop: LDT Optional

Level: Detail
Usage: Optional
Max Use: >1

**Purpose:** To specify quantity information

**Syntax Notes:** 1 At least one of QTY02 or QTY04 is required.

2 Only one of QTY02 or QTY04 may be present.

**Semantic Notes:** Comments:

1 QTY04 is used when the quantity is non-numeric.

Notes:

1. Use this segment to specify the quantity of an item that is to be delivered in accordance with a delivery schedule. The deliverable quantity can be expressed as a discrete quantity or a quantity per time period, e.g., 1000 per month. To indicate a delivery rate per time period, cite in QTY02 the quantity to be delivered and cite in QTY03 the time period, e.g., days, weeks, months, quarters, years.

2. Use also, to indicate the length of the delivery period, e.g., 4 quarters or the number of shipments.

in which a measurement has been taken

1. Use any code other than code ZZ.

2. An application program conversion table may be required to convert agency codes to ASC X12 codes.

#### DA Days

When QTY01 is code 1J, use to indicate frequency of delivery. When QTY01 is code 1K, use to indicate the length of the delivery period.

#### MO Months

When QTY01 is code 1J, use to indicate frequency of delivery. When QTY01 is code 1K, use to indicate the length of the delivery period.

### Q1 Quarter (Time)

When QTY01 is code 1J, use to indicate frequency of delivery. When QTY01 is code 1K, use to indicate the length of the delivery period.

#### WK Week

When QTY01 is code 1J, use to indicate frequency of delivery. When QTY01 is code 1K, use to indicate the length of the delivery period.

#### YR Years

When QTY01 is code 1J, use to indicate frequency of delivery. When QTY01 is code 1K, use to indicate the length of the delivery period.

Refer to 004010 Data Element Dictionary for acceptable code values.

Segment: MSG Message Text

**Position:** 304

Loop: LDT Optional

Level: Detail Usage: Optional

Max Use: 1

**Purpose:** To provide a free-form format that allows the transmission of text information

**Syntax Notes:** 1 If MSG03 is present, then MSG02 is required.

**Semantic Notes:** 1 MSG03 is the number of lines to advance before printing.

**Comments:** 1 MSG02 is not related to the specific characteristics of a printer, but identifies

top of page, advance a line, etc.

2 If MSG02 is "AA - Advance the specified number of lines before print" then

MSG03 is required.

Notes: Use in conjunction with the 2/LDT/302 segment, LDT01 code AI or BG, to

identify the specified event.

Segment: LQ Industry Code

**Position:** 306

**Loop:** LM Optional

Level: Detail
Usage: Mandatory

Max Use: 1

Purpose: Code to transmit standard industry codesSyntax Notes: 1 If LQ01 is present, then LQ02 is required.

**Semantic Notes:** 

**Comments:** 

### **Data Element Summary**

Ref. Data

Des. Element Name Attributes

LQ01 1270 Code List Qualifier Code O ID 1/3

Code identifying a specific industry code list

FX Frequency

Use to indicate the frequency of delivery code for a

data item deliverable on a Contract Data
Requirements List (DD Form 1423).

LQ02 1271 Industry Code

X AN 1/30

Code indicating a code from a specific industry code list

Use a code from DoD 5010.12-M to identify the frequency of delivery for a CDRL data item.

Segment: N9 Reference Identification

**Position:** 320

Loop: N9 Optional

Level: Detail Usage: Optional

Max Use: 1

**Purpose:** To transmit identifying information as specified by the Reference Identification

Qualifier

**Syntax Notes:** 1 At least one of N902 or N903 is required.

2 If N906 is present, then N905 is required.

3 If either C04003 or C04004 is present, then the other is required.

4 If either C04005 or C04006 is present, then the other is required.

**Semantic Notes:** 1 N906 reflects the time zone which the time reflects.

N907 contains data relating to the value cited in N902.

#### **Comments:**

**Notes:** 

1. Use this loop to identify various clauses (e.g., FAR, DFARS, GSARS, VAARS, Agency, or other clauses), OMB Circular, special instructions, or other references that are applicable to a specific line item. If the information applies to all of the line items, use the 1/N9/290 loop.

- 2. When an Alternate section is applicable to a cited clause, the alpha/numeric Alternate identifier and the date MUST be cited in the following MSG segment.
- 3. When citing a clause in N902, the date of the clause MUST be cited in N904 and the title of the clause may be optionally cited in the following MSG segment.

|     | 2. DO NOT use for a purchasing activity payment related clause. Use code H5 in that instance.  |
| DF  | Defense Federal Acquisition Regulations (DFAR)   |
|     | If the DFARS clause has a Modification, Variation or Deviation, identify that condition in N903 and provide the full clause text in the following MSG segment. |
| DHH | Department of Health and Human Services Acquisition Regulation (HHSAR)   |
|     | Use in conjunction with N904 to indicate a clause from the cited regulation.   |
| DOA | Department of Agriculture Acquisition Regulation (AGAR)  |
|     | Use in conjunction with N904 to indicate a clause from the cited regulation.   |
| DOC | Department of Commerce Acquisition Regulation (CAR)  |
|     | Use in conjunction with N904 to indicate a clause from the cited regulation.   |
| DOE | Department of Energy Acquisition Regulation (DEAR)   |
|     | Use in conjunction with N904 to indicate a clause from the cited regulation.   |
| DOI | Department of Interior Acquisition Regulation (DIAR)   |
|     | Use in conjunction with N904 to indicate a clause from the cited regulation.   |
| DOJ | Department of Justice Acquisition Regulation (JAR)   |
|     | Use in conjunction with N904 to indicate a clause from the cited regulation.   |
| DOL | Department of Labor Acquisition Regulation (DOLAR)   |
|     | Use in conjunction with N904 to indicate a clause from the cited regulation.   |
| DOS | Department of State Acquisition Regulation (DOSAR)   |
|     | Use in conjunction with N904 to indicate a clause from the cited regulation.   |
| DOT | Department of Transportation Acquisition Regulation (TAR)  |
|     | Use in conjunction with N904 to indicate a clause from the cited regulation.   |

1. Use to indicate a purchasing activity clause

DTS Department of the Treasury Acquisition/Procurement Regulation (TAPR) Use in conjunction with N904 to indicate a clause from the cited regulation. DX Department/Agency Number 1. Use to indicate an Agency clause and identify the agency in N903. 2. DO NOT use for an Agency payment related clause. Use code H5 in that instance. EC Circular Use to indicate an Office of Management and Budget(OMB) circular number. **EDA** Department of Education Acquisition Regulation (EDAR) Use in conjunction with N904 to indicate a clause from the cited regulation. **EPA** Environmental Protection Agency Acquisition Regulation (EPAAR) Use in conjunction with N904 to indicate a clause from the cited regulation. FA Federal Acquisition Regulations (FAR)

If the FAR clause has a Modification, Variation or Deviation, identify that condition in N903 and provide the full clause text in the following MSG segment.

GS General Services Administration Regulations (GSAR)

> Use in conjunction with N904 to indicate a clause from the cited regulation.

H5 Special Clause

HT

Use this code only to indicate local, purchasing activity or agency payment related information. DO NOT use for a FAR or DFARS payment related clause. Use either code FA or DF in that instance.

Code of Federal Regulations

HUD Department of Housing and Urban Development

Acquisition Regulation (HUDAR)

Use in conjunction with N904 to indicate a clause from the cited regulation.

K7 Paragraph Number

> 1. Use to provide information for a contractor. Cite an applicable number in N902 and provide the information in the following MSG segment.

2. DO NOT use for payment related information. Use code H5 for that purpose.

KD Special Instructions Number

1. Use to indicate a special instruction. Indicate the agency, or purchasing activity issuing the special instruction in N903. If this special instruction number is not included in previously provided terms and conditions, provide the full text in the following MSG segment.

2. DO NOT use for payment related special instructions. Use code H5 for that purpose.

KT Request for Quotation Reference

Use to indicate another type of reference number applicable to the solicitation. This number is not the solicitation number (which is carried in BQT02). This code can be used as a means to provide clear text information, i.e., Notice to Bidders, in the following MSG segment. Another example of the use of this code can be to provide the reason for the cancellation of the solicitation.

KY Site Specific Procedures, Terms, and Conditions

DO NOT use for payment related terms and conditions. Use code H5 for that purpose.

KZ Master Solicitation Procedures, Terms, and Conditions

1. Use to indicate the Master Solicitation number that contains applicable terms and conditions.

2. DO NOT use for payment related terms and conditions. Use code H5 for that purpose.

NAS National Aeronautics and Space Administration FAR

Supplement (NFS)

Use in conjunction with N904 to indicate a clause from the cited regulation.

VB Department of Veterans Affairs Acquisition

Regulations (VAAR)

Use in conjunction with N904 to indicate a clause from the cited regulation.

XY Other Unlisted Type of Reference Number

Use in conjunction with N903 and optionally with the 2/MSG/330 segment, to indicate any other reference that cannot use a specific qualifier code.

Segment: MSG Message Text

**Position:** 330

Loop: N9 Optional

Level: Detail
Usage: Optional
Max Use: 1000

**Purpose:** To provide a free-form format that allows the transmission of text information

**Syntax Notes:** 1 If MSG03 is present, then MSG02 is required.

**Semantic Notes:** 1 MSG03 is the number of lines to advance before printing.

**Comments:** 1 MSG02 is not related to the specific characteristics of a printer, but identifies top of page, advance a line, etc.

2 If MSG02 is "AA - Advance the specified number of lines before print" then MSG03 is required.

**Notes:** 

- 1. Use this segment to carry the title or full text of any clause, a special instruction, or other information associated with the number cited in N902.
- 2. This segment is also used to carry clause fill-in information that is not provided elsewhere within the transaction set. Use of clause titles when providing fill-in information is recommended.
- 3. When providing fill-in information, the following format is recommended:
- a) In the first iteration of the segment, cite the clause title, and the clause Alternate identifier with date if applicable, followed by a pipe sign to indicate the end of the title information, then cite the number of fill-ins followed by a second pipe sign to indicate the end of the title segment.
- b) For each fill-in, begin a new MSG segment using the sequence in which the fill-ins appear within the clause. These MSG segments may each begin with a number indicating the fill-in's sequence position. End each fill-in with a pipe sign. If multiple iterations of MSG are required for a long fill-in, end only the last MSG segment of that fill-in with the pipe sign.
- 4. The purpose of the pipe sign "|" is to provide an indication to receiving applications that the data string related to a single entry has been completed.

An example of a clause with 3 fill-ins follows:

MSG\*Commencement, Prosecution, and Completion of Work Alternate I/3/MSG\*1. 30/

MSG\*2. 30 Sep 1995/

MSG\*3. 15 Jan 1995/

5. An example alternative format provides all fill-in information within the title MSG segment as follows:

MSG\*Commencement, Prosecution, and Completion of Work Alternate I

# |3|30|Sep 30, 1995|Jan 15, 1995|

|          | Ref.  | Data           |  |       |                |

Segment: N1 Name

**Position:** 340

Loop: N1 Optional

Level: Detail
Usage: Optional

Max Use: 1

**Purpose:** To identify a party by type of organization, name, and code

**Syntax Notes:** 1 At least one of N102 or N103 is required.

2 If either N103 or N104 is present, then the other is required.

### **Semantic Notes:**

**Comments:** 

- 1 This segment, used alone, provides the most efficient method of providing organizational identification. To obtain this efficiency the "ID Code" (N104) must provide a key to the table maintained by the transaction processing party.
- 2 N105 and N106 further define the type of entity in N101.

Notes:

Ref.

Data

- 1. Use the loop to identify organizations and locations that apply to a specific line item. Use the 1/N1/310 loop to identify organizations and locations that apply to all of the line items.
- 2. Whenever possible, identification and address information should be provided using N101, N103, and N104. Use N102 and segments N2 through N4, as applicable, when the address cannot be provided using one of the codes listed in N103.
- 3. When this segment is used to provide a ship-to address for distribution of a data item on a Contract Data Requirements List, N102 should be used to specify the office symbol or code within the receiving organization, if necessary.

or Safety Office serving the ship-to location.

**Preliminary Inspection Location**

When used, cite the name of N102 and the N2 segment, if necessary | address<br>e. Do not use if<br>o pass this<br>f the party in |
|   |                     |               | 7D  | Contracting Officer Representative  |  |
|   |                     |               | 7G  | Hazardous Material Office   |  |
|   |                     |               |   | Use to indicate the installation Haza   | rdous Material   |

7L

Use to indicate the inspection location of a first article.

7M Inspection and Acceptance Location

Use to indicate the inspection and acceptance point when both are at the same location but the location is neither at origin nor at destination.

88 Approver

Use to indicate the party approving a Contract Data Requirements List.

CY Country

Use in conjunction with the 2/N9/320 segment, N901 code 2E, and N103 code 38, to indicate the country to which a Foreign Military Sale applies.

EL Established Location

Use to indicate the site or property inspection location.

HMI Material Safety Data Sheet (MSDS) Recipient

Use to indicate the Agency's Hazardous Material Information System (HMIS) central focal point to whom Material Safety Data Sheets are to be sent.

IF International Freight Forwarder

Use in conjunction with the 2/FOB/180 segment, FOB02 code IT.

IS Party to Receive Certified Inspection Report

KG Project Manager

Use to indicate the government party responsible for a project to include the advisor under a grant

KX Free on Board Point

Use to indicate the FOB point when it has to be described by a specific address rather than as a code value indicating either origin or destination. Applicable when FOB02 is code KE, KL or ZZ.

KY Technical Office

Use to indicate the technical office that has cognizance over the technical portion of the order, if different than the office originating the order. Do not use unless it is intended for the contractor to deal directly with the cited party.

KZ Acceptance Location

Use when the acceptance point is other than at origin or destination.

L1 Inspection Location

|                   | Use to indicate the inspection location to be described as an address which is origin or destination.  |                          |                              |

PER Administrative Communications Contact **Segment:** 

**Position:** 390

> N1 Loop: **Optional**

Level: Detail Optional Usage:

Max Use:

**Purpose:** To identify a person or office to whom administrative communications should be

**Syntax Notes:** 1 If either PER03 or PER04 is present, then the other is required.

If either PER05 or PER06 is present, then the other is required.

If either PER07 or PER08 is present, then the other is required.

Semantic Notes:

**Comments:** 

Use this segment to provide communications contacts associated with the entities **Notes:** 

cited in the same N1 loop.

### **Data Element Summary**

|   | Ref.  | Data           |  |       |                |
|---|-------|----------------|--|-------|----------------|
|   | Des.  | <b>Element</b> | <u>Name</u>  | Att   | <u>ributes</u> |
| M | PER01 | 366            | <b>Contact Function Code</b>                                     | M     | ID 2/2         |
|   |       |                | Code identifying the major duty or responsibility of the penamed | erson | or group       |

ΑV Advisor

> Use in conjunction with the 2/N1/340 segment, N101 code KG, to indicate the government party who will work with the eventual contractor on basic

R&D efforts in a particular science area.

CD **Contract Contact** 

> Use in conjunction with the 2/N1340 segment, N101 code 7D to indicate the Contracting Officer's

Representative.

HMHazardous Material Contact

Use in conjunction with the 2/N1/340 segment,

N101 code 7G.

IC Information Contact

> Use with an applicable N101 code to indicate an information point of contact when no other code

applies.

KC Accepting Official

> Use in conjunction with the 2/N1/340 segment, N101 code ST to indicate the accepting official at

destination.

NT **Notification Contact** 

Use in conjunction with the 2/N1/340 segment,

N101 code ST, to indicate the party to be contacted for shipping instructions.

PP Program Manager

1. Includes Grants Project Officer

2. Use in conjunction with the 2/N1/340 segment, N101 code KG.

RE Receiving Contact

Use in conjunction with the 2/N1/340 segment, N101 code ST and the 2/CSH/142 segment, CSH07 code NC, to indicate the party to be contacted to schedule a shipment.

#### PER02 93 Name

O AN 1/60

Free-form name

Use to identify the name of a point of contact. Last name, followed by first name, is preferred. If the whole name is longer than 35 characters, the use of initials for the first name is recommended. PER09 may be used to cite the party's title.

#### PER03 365 Communication Number Qualifier

X ID 2/2

Code identifying the type of communication number

AU Defense Switched Network

Detense Switched IV

EM Electronic Mail

FX Facsimile

IT International Telephone

Include the country code.

TE Telephone

Use to indicate the commercial telephone number of the individual cited in PER02. Include the area

code.

#### PER04 364 Communication Number

X AN 1/80

Complete communications number including country or area code when applicable

All numbers, other than those associated with code EM, shall be transmitted as a continuous number with no extraneous characters. If an extension applies to the telephone number, concatenate the letter X plus the extension at the end of the number, e.g., 17035551212X123.

#### PER05 365 Communication Number Qualifier

X ID 2/2

Code identifying the type of communication number

Use to identify a second communications number for the party cited in PER02. For example, if PER03/04 cites a telephone number, PER05/06 can be used to cite a FAX number.

AU Defense Switched Network

EM Electronic Mail

FX Facsimile

IT International Telephone

Include the country code.

TE Telephone

Use to indicate the commercial telephone number of the individual cited in PER02. Include the area

code.

#### PER06 364 Communication Number

X AN 1/80

Complete communications number including country or area code when applicable

All numbers, other than those associated with code EM, shall be transmitted as a continuous number with no extraneous characters. If an extension applies to the telephone number, concatenate the letter X plus the extension at the end of the number, e.g., 17035551212X123.

#### PER07 365 Communication Number Qualifier

X ID 2/2

Code identifying the type of communication number

Use to identify a third communications number for the party cited in PER02.

AU Defense Switched Network

EM Electronic Mail

FX Facsimile

IT International Telephone

Include the country code.

TE Telephone

Use to indicate the commercial telephone number of the individual cited in PER02. Include the area

code.

#### PER08 364 Communication Number

X AN 1/80

Complete communications number including country or area code when applicable

All numbers, other than those associated with code EM, shall be transmitted as a continuous number with no extraneous characters. If an extension applies to the telephone number, concatenate the letter X plus the extension at the end of the number, e.g., 17035551212X123.

# PER09 443 Contact Inquiry Reference

O AN 1/20

Additional reference number or description to clarify a contact number

Use, if necessary, to provide the office symbol or title of the party cited in PER02.

Segment: SCH Line Item Schedule

**Position:** 405

Loop: N1 Optional

Level: Detail
Usage: Optional
Max Use: 200

Purpose: To specify the data for scheduling a specific line-itemSyntax Notes: 1 If SCH03 is present, then SCH04 is required.

2 If SCH08 is present, then at least one of SCH09 or SCH10 is required.

3 If SCH09 is present, then SCH08 is required.4 If SCH10 is present, then SCH08 is required.

**Semantic Notes:** 1 SCH12 is the schedule identification.

**Comments:** 1 SCH05 specifies the interpretation to be used for SCH06 and SCH07.

Notes: Use this segment to identify a partial delivery when it can be specified as an

actual date and is applicable to a named entity.

Segment: TD5 Carrier Details (Routing Sequence/Transit Time)

**Position:** 420

Loop: N1 Optional

Level: Detail
Usage: Optional
Max Use: 12

**Purpose:** To specify the carrier and sequence of routing and provide transit time information

Syntax Notes: 1 At least one of TD502 TD504 TD505 TD506 or TD512 is required.

If TD502 is present, then TD503 is required.
 If TD507 is present, then TD508 is required.
 If TD510 is present, then TD511 is required.
 If TD513 is present, then TD512 is required.
 If TD514 is present, then TD513 is required.
 If TD515 is present, then TD512 is required.

**Semantic Notes:** 1 TD515 is the country where the service is to be performed.

**Comments:** 1 When specifying a routing sequence to be used for the shipment movement in lieu of specifying each carrier within the movement, use TD502 to identify the party responsible for defining the routing sequence, and use TD503 to identify the actual routing sequence, specified by the party identified in TD502.

Notes: Use this segment to identify the transportation method applicable to a named entity for a specific line item.

Segment: TD4 Carrier Details (Special Handling or Hazardous Materials or Both)

**Position:** 440

Loop: N1 Optional

Level: Detail
Usage: Optional

Max Use: 5

**Purpose:** To specify transportation special handling requirements, or hazardous materials

information, or both

**Syntax Notes:** 1 At least one of TD401 TD402 or TD404 is required.

2 If TD402 is present, then TD403 is required.

**Semantic Notes:** 1 TD405 identifies if a Material Safety Data Sheet (MSDS) exists for this

product. A "Y" indicates an MSDS exists for this product; an "N" indicates an

MSDS does not exist for this product.

**Comments:** 

Notes: Use this segment when the special handling or hazardous material information is

applicable to a named entity for a specific line item.

Segment: PKG Marking, Packaging, Loading

**Position:** 450

**Loop:** N1 Optional

Level: Detail
Usage: Optional
Max Use: 200

**Purpose:** To describe marking, packaging, loading, and unloading requirements

**Syntax Notes:** 1 At least one of PKG04 PKG05 or PKG06 is required.

- 2 If PKG04 is present, then PKG03 is required.
- 3 If PKG05 is present, then PKG01 is required.

Semantic Notes: Comments: 1 PKG04 should be used for industry-specific packaging description codes.
1 Use the MEA (Measurements) Segment to define dimensions, tolerances,

weights, counts, physical restrictions, etc.

2 If PKG01 equals "F", then PKG05 is used. If PKG01 equals "S", then PKG04 is used. If PKG01 equals "X", then both PKG04 and PKG05 are used.

- 3 Use PKG03 to indicate the organization that publishes the code list being referred to.
- 4 Special marking or tagging data can be given in PKG05 (description).

**Notes:** 

- 1. Use this segment to identify packaging requirements applicable to a named entity for a specific line item.
- 2. Packaging information such as the number of items in a unit container; the number of unit containers in an intermediate container; and the gross weight, cube and dimensions of a unit or intermediate container is carried in the 2/PO4/090 segment.
- 3. The use of MILSTD 2073-1C codes to identify packaging requirements for items in this award instrument are primarily for items that are expected to enter the military distribution system. Commercial packaging is expected to be used to the maximum extent possible for all other items.
- 4. Commercial packaging requirements are specified by the use of PKG02 code PK, PKG03 code DF, and citing the corresponding code U in PKG04.

Code identifying loading or unloading a shipment

840 (R1)

01 Palletized10 Shrink-wrap

Segment: LDT Lead Time

**Position:** 470

Loop: LDT Optional

Level: Detail Usage: Optional

Max Use: 1

**Purpose:** To specify lead time for availability of products and services

**Syntax Notes:** 

**Semantic Notes:** 1 LDT04 is the effective date of lead time information.

**Comments:** 

1 LDT02 is the quantity of unit of time periods.

**Notes:** 

1. Use this loop when the delivery schedule is expressed as a set time period after the occurrence of some event, and varies by line item. If the delivery schedule is the same for all the ship-to addressees for the line item, use the 2/LDT/302 segment.

2. The following are examples of how this LDT loop can be used to specify a delivery schedule:

Example 1: Deliver 50 each 180 days after date of order.

LDT\*AY\*180\*DA n/l QTY\*1J\*50\*EA n/l

Example 2: Deliver the total quantity of 500 each as follows: 50 per month commencing 180 days after date of order.

LDT\*AY\*180\*DA n/l QTY\*1J\*50\*MO n/l

Example 3: Deliver the total quantity of 20,500 each as follows: 2500 each per quarter commencing 90 days after date of order until half the order is completed, then 1000 each per month until the total order is complete.

LDT\*AY\*90\*DA n/l
QTY\*1J\*2500\*Q1 n/l
QTY\*1K\*4\*Q1 n/l
LDT\*AM\*1\*MO n/l
QTY\*1J\*1000\*MO n/l
QTY\*1K\*10\*MO n/l
LDT\*AK\*1\*MO n/l
OTY\*1J\*500\*EA n/l

Segment: MAN Marks and Numbers

**Position:** 480

Loop: LDT Optional

Level: Detail
Usage: Optional
Max Use: 10

Purpose: To indicate identifying marks and numbers for shipping containersSyntax Notes: 1 If either MAN04 or MAN05 is present, then the other is required.

2 ICAMANOC' A AMANOC' 1

2 If MAN06 is present, then MAN05 is required.
 Semantic Notes: 1 MAN01/MAN02 and MAN04/MAN05 may be

1 MAN01/MAN02 and MAN04/MAN05 may be used to identify two different marks and numbers assigned to the same physical container.

- **2** When both MAN02 and MAN03 are used, MAN02 is the starting number of a sequential range and MAN03 is the ending number of that range.
- **3** When both MAN05 and MAN06 are used, MAN05 is the starting number of a sequential range, and MAN06 is the ending number of that range.
- Comments: 1 When MAN01 contains code "UC" (U.P.C. Shipping Container Code) and

MAN05/MAN06 contain a range of ID numbers, MAN03 is not used. The reason for this is that the U.P.C. Shipping Container code is the same on every carton that is represented in the range in MAN05/MAN06.

2 MAN03 and/or MAN06 are only used when sending a range(s) of ID numbers. When both MAN02/MAN03 and MAN05/MAN06 are used to send ranges of ID numbers, the integrity of the two ID numbers must be maintained.

Notes: 1. Use this segment to identify marks and numbers associated with a ship-to addressee.

2. Use to identify such data as MILSTRIP/DLMS/FEDSTRIP number, Transportation Control number, Project Priority number, and consignee related codes.

Marks and numbers used to identify a shipment or parts of a shipment

Segment: QTY Quantity

**Position:** 490

Loop: LDT Optional

Level: Detail
Usage: Optional

Max Use: 5

**Purpose:** To specify quantity information

**Syntax Notes:** 1 At least one of QTY02 or QTY04 is required.

2 Only one of QTY02 or QTY04 may be present.

**Semantic Notes:** Comments:

1 QTY04 is used when the quantity is non-numeric.

Notes:

1. Use this segment to specify the quantity of an item that is to be delivered in accordance with a delivery schedule. The deliverable quantity can be expressed as a discrete quantity or a quantity per time period, e.g., 1000 per month. To indicate a delivery rate per time period, cite in QTY02 the quantity to be delivered and cite in QTY03 the time period, e.g., days, weeks, months, quarters, years.

2. Use also, to indicate the length of the delivery period, e.g., 4 quarters or the number of shipments.

Segment: MSG Message Text

**Position:** 500

Loop: LDT Optional

Level: Detail
Usage: Optional
Max Use: 1000

**Purpose:** To provide a free-form format that allows the transmission of text information

**Syntax Notes:** 1 If MSG03 is present, then MSG02 is required.

**Semantic Notes:** 1 MSG03 is the number of lines to advance before printing.

**Comments:** 1 MSG02 is not related to the specific characteristics of a printer, but identifies

top of page, advance a line, etc.

2 If MSG02 is "AA - Advance the specified number of lines before print" then

MSG03 is required.

Notes: When LDT01 is code AI or BG, use to identify the specified event.

Segment: PCT Percent Amounts

**Position:** 510

Loop: PCT Optional

Level: Detail Usage: Optional

Max Use: 1

**Purpose:** To qualify percent amounts and supply percent amounts

Syntax Notes: Semantic Notes: Comments:

Notes: Use this segment to carry percentages, other than those associated with a pricing

arrangement, that apply to a specific line item. Use the 1/PCT/610 segment if

the percentages apply to all of the line item.

# **Data Element Summary**

Ref. Data

Des. Element Name

M PCT01 1004 Percent Qualifier

M ID 1/2

Code to qualify percent

LM Limit

Use to indicate the percentage of the replacement price above which repair/overhaul of the item identified in the PO1 segment is not cost effective.

The replacement price is specified in the

2/CTP/040 segment.

OP Option Percentage

Use to indicate the percent of the firm quantity

that applies to the option quantity.

RG Progress Payment Rate

Use to indicate a Progress Payment Rate other

than the customary rate.

RR Alternate Progress Payment Liquidation Rate

M PCT02 954 Percent M R 1/10

Percentage expressed as a decimal

Cite 4.25% as .0425; cite 3% as .03 (note: leading and trailing zeros are

suppressed).

Segment: CTT Transaction Totals

**Position:** 010

Loop:

Level: Summary Usage: Optional

Max Use: 1

Purpose: To transmit a hash total for a specific element in the transaction set

Syntax Notes: 1 If either CTT03 or CTT04 is present, then the other is required.

2 If either CTT05 or CTT06 is present, then the other is required.

**Semantic Notes:** 

Comments: 1 This segment is intended to provide hash totals to validate transaction

completeness and correctness.

|          |              |                | Sum of values of the specified data element. All values in the data element will be summed without regard to decimal points (explicit or implicit) or signs. Truncation will occur on the left most digits if the sum is greater than the maximum size of the hash total of the data element. Example:0018 First occurrence of value being hashed18 Second occurrence of value being hashed. 1.8 Third occurrence of value being hashed. 18.01 Fourth occurrence of value being hashed |        |                |  |
|          |              |                | This is the sum of the quantities (PO102) for all of the P   | 01 s   | egments.       |  |

Segment:  ${\bf SE}$  Transaction Set Trailer

**Position:** 020

Loop:

Level: Summary Usage: Mandatory

Max Use: 1

Purpose: To indicate the end of the transaction set and provide the count of the transmitted

segments (including the beginning (ST) and ending (SE) segments)

**Syntax Notes:** 

**Semantic Notes:** 

**Comments:** 1 SE is the last segment of each transaction set.

| M | Ref.<br><u>Des.</u><br>SE01 | Data <u>Element</u> 96 | Name Number of Included Segments   |       | ributes<br>N0 1/10 |
